

1

00:00:01,550 --> 00:00:05,330

Here we are at the International Space station.

We're doing a reboost right now and we're showing

2

00:00:05,330 --> 00:00:08,559

that the space station is actually
accelerating away

3

00:00:08,559 --> 00:00:11,839

from us. We're gonna float
in the middle of the cabin

4

00:00:11,839 --> 00:00:15,249

And it's started already.

5

00:00:15,249 --> 00:00:16,569

We start off stopped

6

00:00:16,569 --> 00:00:21,560

in front of the camera

7

00:00:21,560 --> 00:00:24,449

And you can see...

And we get moved

8

00:00:24,449 --> 00:00:31,449

Space station's accelerating,
leaving us behind.

9

00:00:41,190 --> 00:00:42,520

It's amazing

10

00:00:42,520 --> 00:00:49,470

I do it again.

11

00:00:49,470 --> 00:00:56,470

Holding still.

12

00:01:06,160 --> 00:00:59,160

Wow!

13

00:01:36,620 --> 00:01:38,530

Houston, Station. Mike on 2.

14

00:01:38,530 --> 00:01:45,530

Hope you guys saw some of that.

15

00:01:51,870 --> 00:01:58,530

We weren't looking in the lab, Mike.

16

00:01:58,530 --> 00:02:01,450

Okay, well we're recording it
on a couple of cameras.

17

00:02:01,450 --> 00:02:05,600

The acceleration was pretty amusing.

18

00:02:05,600 --> 00:02:07,210

It took me all the way
from the front to PMA2,
