

1
00:00:01,079 --> 00:00:08,079
Human exploration of space. That's what
we do at NASA.

2
00:00:20,730 --> 00:00:23,890
We're going to send humans farther
into space than ever before and

3
00:00:23,890 --> 00:00:30,890
eventually to Mars.

4
00:00:39,380 --> 00:00:46,380
With new spacecraft and rockets that'll
take us wherever we want to go.

5
00:00:50,220 --> 00:00:51,660
We need you

6
00:00:51,660 --> 00:00:55,360
to help plan for this future
of exploration.

7
00:00:55,360 --> 00:00:56,490
Join NASA.

8
00:00:56,490 --> 00:01:03,490
Get your application in now for the
2013 astronaut candidate class.
