

1  
00:00:00,666 --> 00:00:07,686  
[Countdown]

2  
00:00:09,666 --> 00:00:12,536  
We are the explorers.

3  
00:00:12,536 --> 00:00:15,806  
We have a need to find what is out there.

4  
00:00:15,806 --> 00:00:18,826  
It is a drive inside each and every one of us.

5  
00:00:19,086 --> 00:00:23,336  
The drive to wonder....to push  
the boundaries ...and to explore.

6  
00:00:23,336 --> 00:00:29,296  
We expanded across our lands,  
settling new frontiers.

7  
00:00:29,916 --> 00:00:34,586  
We took to the oceans and learned that  
we could cross treacherous expanses

8  
00:00:34,746 --> 00:00:36,296  
in the pursuit of discovery.

9  
00:00:37,036 --> 00:00:40,536  
And then, we took to the skies and flew.

10  
00:00:41,586 --> 00:00:42,706  
But that wasn't enough.

11  
00:00:43,416 --> 00:00:47,316  
We left the planet...and  
redefined what was possible.

12  
00:00:49,486 --> 00:00:51,016

We flew in space.

13

00:00:51,436 --> 00:00:52,856

We walked in space.

14

00:00:54,586 --> 00:00:59,446

What once was a melodramatic  
flight of fantasy...became reality.

15

00:01:01,526 --> 00:01:07,166

Then a new generation of spaceships captured  
hearts and minds for three decades...

16

00:01:07,606 --> 00:01:12,786

and helped build a castle in the sky  
that is our lasting home in space.

17

00:01:15,736 --> 00:01:17,426

We have always looked up.

18

00:01:18,046 --> 00:01:22,226

For centuries, we wondered what  
was on the other side of the sky,

19

00:01:22,226 --> 00:01:25,996

and we have begun to answer that question.

20

00:01:26,116 --> 00:01:33,136

We have learned that all the exploration  
humankind has achieved is only a beginning.

21

00:01:33,326 --> 00:01:36,226

Right now, men and women are  
working on the next steps

22

00:01:36,286 --> 00:01:39,006

to go farther than we have ever gone before.

23

00:01:39,546 --> 00:01:44,246

New vessels will carry us and  
new destinations await us.

24

00:01:45,416 --> 00:01:49,766

Everything we have ever accomplished  
leads to this moment in time,

25

00:01:50,476 --> 00:01:55,196

where exploration will now take  
us to the planets and the stars.

26

00:01:56,506 --> 00:02:00,146

Our nearest neighbors in the  
night sky have beckoned us,

27

00:02:00,376 --> 00:02:03,376

invited us, dared us to reach for them.

28

00:02:05,766 --> 00:02:07,746

We are the explorers.

29

00:02:08,626 --> 00:02:14,706

Throughout our history, we have taken both  
small steps and giant leaps in that pursuit.

30

00:02:16,596 --> 00:02:18,946

Our next destination awaits.
