

1  
00:00:00,500 --> 00:03:40,850  
[ Background noise ]

2  
00:03:40,850 --> 00:03:44,190  
>> We are just exactly four  
weeks from launch day, the --

3  
00:03:44,190 --> 00:03:46,500  
we're planning to launch  
on the 23rd of October.

4  
00:03:46,500 --> 00:03:47,900  
And today, this morning  
we started

5  
00:03:47,900 --> 00:03:49,070  
out with our State Commission,

6  
00:03:49,070 --> 00:03:52,020  
which is the official  
certification of our flight

7  
00:03:52,020 --> 00:03:53,740  
and always, all member --

8  
00:03:53,740 --> 00:03:55,940  
the State Department  
Commission comes in

9  
00:03:55,940 --> 00:03:57,940  
and signs us off  
and clears us to go.

10  
00:03:57,940 --> 00:04:00,930  
So a very special day for  
us today, it's a big step

11  
00:04:00,930 --> 00:04:04,370  
on the journey and then after

that, we spent a little time

12

00:04:04,370 --> 00:04:07,470

in Sri City, we visited a  
museum and signed some books

13

00:04:07,470 --> 00:04:10,750

and saw the Library  
of [Foreign name]

14

00:04:10,750 --> 00:04:12,760

and then made the  
journey downtown here,

15

00:04:12,760 --> 00:04:15,720

we're in the Kremlin right  
now, right near Red Square

16

00:04:15,720 --> 00:04:19,660

and we placed some flowers at  
the gravesites of [Foreign name]

17

00:04:19,660 --> 00:04:23,560

and [Foreign name] to kind of  
pay our reverences to those

18

00:04:23,560 --> 00:04:26,540

who have gone before us  
and of course a big part

19

00:04:26,540 --> 00:04:29,280

of our history is those  
people, the early pioneers

20

00:04:29,280 --> 00:04:31,380

of our spaceflight,  
that's what allows us

21

00:04:31,380 --> 00:04:32,600

to continue the program

22

00:04:32,600 --> 00:04:34,480  
on the International  
Space Station today.

23

00:04:34,480 --> 00:04:37,400  
When I do that, I of course  
think of the people in the --

24

00:04:37,400 --> 00:04:39,020  
all over the world  
and especially though

25

00:04:39,020 --> 00:04:41,630  
in our U.S. Space Program that  
laid the foundation for us

26

00:04:41,630 --> 00:04:43,260  
to do what we're doing as well.

27

00:04:43,260 --> 00:04:47,460  
So very, very significant  
for us and after that,

28

00:04:47,460 --> 00:04:48,740  
we just took a little  
tour around,

29

00:04:48,740 --> 00:04:51,690  
got to see the Czar's  
Bell and the cannon inside

30

00:04:51,690 --> 00:04:54,350  
and to have just a little  
time inside the Kremlin,
