

1
00:00:01,300 --> 00:00:05,370
>> Station Houston on
[inaudible] 24 hatch opening.

2
00:00:08,280 --> 00:00:05,440
>> [Inaudible]

3
00:00:08,280 --> 00:00:12,290
to let you know in [inaudible] 6
decimal 1 we do have active fire

4
00:00:12,290 --> 00:00:14,570
detection, and so you are go

5
00:00:14,570 --> 00:00:17,500
for hatch opening
through 9 decimal 1.

6
00:00:17,500 --> 00:00:19,020
We'll do some ground
commanding here,

7
00:00:19,020 --> 00:00:21,670
and then start your 20-minute
clock, and we can let you know

8
00:00:21,670 --> 00:00:23,890
when 20 minutes are up,
and you can ingress.

9
00:00:23,890 --> 00:00:27,480
This is PPE, and we can also let
you know when the 45 minutes are

10
00:00:27,480 --> 00:00:29,510
up for your PPE dock
clock if you'd like.

11
00:00:29,510 --> 00:03:20,040

[Pause]

12

00:03:20,040 --> 00:03:21,430

>> Aki Hoshide: Houston

[inaudible] two.

13

00:03:21,430 --> 00:03:23,510

Dragon Hatch is open, and

[inaudible] are closed.

14

00:03:23,510 --> 00:03:29,660

[Pause]

15

00:03:29,660 --> 00:03:30,510

>> Aki, thanks.

16

00:03:30,510 --> 00:04:09,350

[Pause]

17

00:04:09,350 --> 00:04:12,460

>> Aki Hoshide: And Houston

Station [inaudible] report

18

00:04:12,460 --> 00:04:15,600

visual inspection of

the Dragon is good.

19

00:04:15,600 --> 00:04:16,970

No condensation.

20

00:04:16,970 --> 00:04:18,070

General conditions are good.
