

1  
00:00:11,679 --> 00:00:21,830  
oh

2  
00:00:21,840 --> 00:00:30,150  
foreign

3  
00:00:30,160 --> 00:01:25,350  
spicy butcher

4  
00:01:59,030 --> 00:01:41,109  
um

5  
00:01:59,040 --> 00:02:31,750  
foreign

6  
00:02:31,760 --> 00:02:48,150  
sure

7  
00:02:48,160 --> 00:03:05,509  
all right

8  
00:03:10,790 --> 00:03:09,190  
feels very familiar it's like

9  
00:03:13,110 --> 00:03:10,800  
it's like a place i spend a lot of time

10  
00:03:15,270 --> 00:03:13,120  
but suddenly it's it's real

11  
00:03:17,350 --> 00:03:15,280  
you know there's like this little uh

12  
00:03:19,350 --> 00:03:17,360  
little smile bouncing around inside of

13  
00:03:27,509 --> 00:03:19,360

me that's ready to about to burst down

14

00:03:31,190 --> 00:03:29,509

tom what's the feeling like when you see

15

00:03:32,710 --> 00:03:31,200

your spacecraft ready to fly oh it's the

16

00:03:34,390 --> 00:03:32,720

most exciting thing in the world you see

17

00:03:36,070 --> 00:03:34,400

it exactly the way it's going to be but

18

00:03:37,990 --> 00:03:36,080

you're focusing a lot because you want

19

00:03:39,509 --> 00:03:38,000

to see everything that you need right

20

00:03:41,190 --> 00:03:39,519

when you get into space and know where

21

00:03:42,630 --> 00:03:41,200

it is you can access it right away very

22

00:03:44,710 --> 00:03:42,640

exciting enough

23

00:03:47,910 --> 00:03:44,720

good luck thank you very much

24

00:03:50,309 --> 00:03:47,920

on behalf of uh the expedition 34 35

25

00:03:51,910 --> 00:03:50,319

crew rahman and tom and myself here at

26  
00:03:54,390 --> 00:03:51,920  
the baikonur cosmodrome we are how many

27  
00:03:55,429 --> 00:03:54,400  
days from launch five six six six days

28  
00:03:57,190 --> 00:03:55,439  
from launch

29  
00:03:59,670 --> 00:03:57,200  
it's a beautiful cold winter's day our

30  
00:04:01,910 --> 00:03:59,680  
rocket ship is almost ready and we are

31  
00:04:05,030 --> 00:04:01,920  
almost ready and here we are in the uh

32  
00:04:07,030 --> 00:04:05,040  
the column of the trees where uh gagarin

33  
00:04:09,110 --> 00:04:07,040  
planted the first tree and every

34  
00:04:11,190 --> 00:04:09,120  
generation of astronauts cosmonauts

35  
00:04:12,550 --> 00:04:11,200  
since then has planted a tree it's a

36  
00:04:15,110 --> 00:04:12,560  
wonderful tradition to come out here and

37  
00:04:17,509 --> 00:04:15,120  
go for a walk great historic place and
