

1

00:00:02,550 --> 00:00:04,600

[Ford] Happy new year from the International Space Station.

2

00:00:04,600 --> 00:00:05,630

Welcome onboard.

3

00:00:05,630 --> 00:00:10,340

I'm Kevin Ford, commander of Expedition 34, and I have two new crew members who just

4

00:00:10,340 --> 00:00:15,330

arrived aboard less than a week ago, ready to join me to get some science under way here

5

00:00:15,330 --> 00:00:16,789

in 2013.

6

00:00:16,789 --> 00:00:21,140

[Hadfield] Hi, I'm Chris Hadfield from the Canadian Space Agency.

7

00:00:21,140 --> 00:00:26,140

It is a tremendous privilege to be one of the new guys onboard the International Space

8

00:00:26,140 --> 00:00:27,949

Station.

9

00:00:27,949 --> 00:00:36,120

[Translates into French] I want to wish everybody a very happy new year.

10

00:00:36,120 --> 00:00:42,079

2013 really promises to be a productive one for those of us onboard the International

11

00:00:42,079 --> 00:00:43,440

Space Station.

12
00:00:43,440 --> 00:00:48,289
[Marshburn] Looking forward to the new year
with hundreds of experiments still ongoing

13
00:00:48,289 --> 00:00:53,399
here on the space station, developing new
materials, new devices that are smarter, lighter,

14
00:00:53,399 --> 00:01:00,920
more capable, and with commercial partners
that will be joining us in this great endeavor.
