

**Karen Nyberg**  
NASA Astronaut

*Expedition 37*

1  
00:00:00,336 --> 00:00:00,646  
>> Karen Nyberg: Hi.

2  
00:00:00,646 --> 00:00:03,076  
I'm Karen Nyberg, a NASA  
astronaut and crew member

3  
00:00:03,076 --> 00:00:04,496  
of the International  
Space Station.

4  
00:00:04,886 --> 00:00:06,856  
The Space Station is  
an amazing laboratory

5  
00:00:07,026 --> 00:00:08,866  
where we are conducting  
valuable research

6  
00:00:08,866 --> 00:00:09,956  
to benefit life on Earth.

7  
00:00:10,366 --> 00:00:13,406  
Our work has led to advancements  
in telemedicine, helping people

8  
00:00:13,406 --> 00:00:16,316  
in remote locations, helping  
develop important vaccines,

9  
00:00:16,316 --> 00:00:17,916  
and much, much more.

10  
00:00:17,916 --> 00:00:20,566  
As the mother of a preschooler,  
it means a lot to me to know

11  
00:00:20,566 --> 00:00:22,966  
that our work in space is

helping all of us on Earth.
