

www.karaga

1
00:00:00,800 --> 00:00:05,004
[Silence]

2
00:00:05,004 --> 00:00:14,080
[Helicopter Taking Off]

3
00:00:20,519 --> 00:00:29,595
[Outside Noise]

4
00:00:31,030 --> 00:00:40,106
[Truck Idling]

5
00:01:00,493 --> 00:01:09,034
[Background Conversations]

6
00:01:09,034 --> 00:01:10,136
>> I can see you're
walking on your own.

7
00:01:10,136 --> 00:01:11,270
Very nice.

8
00:01:11,270 --> 00:01:12,838
[Truck Idling and
Background Conversations]

9
00:01:12,838 --> 00:01:14,507
Hello.

10
00:01:14,507 --> 00:01:23,582
[Background Conversations]

11
00:01:25,017 --> 00:01:34,093
[Sirens]

12
00:01:37,530 --> 00:01:46,605
[Static Background]

13

00:01:49,041 --> 00:01:51,243

[Background Conversations]

14

00:01:51,243 --> 00:01:55,381

Welcome to the land of
Kazakhstan, and allow me

15

00:01:55,381 --> 00:01:59,552

to present you with
a little souvenir.

16

00:01:59,552 --> 00:02:02,488

Roman has done this before,
so he knows the routine.

17

00:02:02,488 --> 00:02:09,028

[Background Conversations]

18

00:02:09,028 --> 00:02:13,499

So allow me to present you
with our traditional coat.

19

00:02:13,499 --> 00:02:22,041

[Background Conversations]

20

00:02:22,041 --> 00:02:25,511

The crew is into
music, we've been told.

21

00:02:25,511 --> 00:02:30,382

[Background Conversations]

22

00:02:30,382 --> 00:02:31,350

Oh thank you.

23

00:02:31,350 --> 00:02:32,151

Very nice.

24

00:02:32,151 --> 00:02:32,851
[Foreign Language Spoken]

25

00:02:32,851 --> 00:02:39,425
>> You stay there Chris.

26

00:02:39,425 --> 00:02:40,659
>> Yes or no.

27

00:02:40,659 --> 00:02:42,027
[Foreign Language Spoken]

28

00:02:42,027 --> 00:02:51,103
[Background Conversations]

29

00:03:05,150 --> 00:03:13,759
>> The representatives from the
Kursk Region made these for you,

30

00:03:13,759 --> 00:03:20,766
and in honor of your
return to earth.

31

00:03:20,766 --> 00:03:24,136
So this is for you, and
good luck in the future.

32

00:03:24,136 --> 00:03:26,305
[Background Conversations]

33

00:03:26,305 --> 00:03:27,940
Does it look like me?

34

00:03:27,940 --> 00:03:29,875
Yes. It looks exactly like you.

35

00:03:29,875 --> 00:03:31,076
>> [Foreign Language Spoken]

36

00:03:31,076 --> 00:03:35,014

>> You already have 7
million views on YouTube.

37

00:03:35,014 --> 00:03:35,914

>> Okay.

38

00:03:35,914 --> 00:03:36,715

>> That's a lot.

39

00:03:36,715 --> 00:03:37,983

>> [Foreign Language Spoken]

40

00:03:37,983 --> 00:03:43,989

>> And that's a good song.

41

00:03:43,989 --> 00:03:47,526

I'm glad that other
people appreciate it.

42

00:03:47,526 --> 00:03:56,602

[Background Conversations]

43

00:04:01,006 --> 00:04:06,545

It's very important for
humanity to be in space,

44

00:04:06,545 --> 00:04:13,285

and it felt like music
there, and it was a big part

45

00:04:13,285 --> 00:04:17,323

of my life, and so I'm glad
to know that I have millions

46

00:04:17,323 --> 00:04:20,592

of views on YouTube,
because it allows me

47

00:04:20,592 --> 00:04:22,494
to share my experience.

48

00:04:22,494 --> 00:04:30,135
[Background Conversations]

49

00:04:30,135 --> 00:04:35,174
Sometimes we have a
spare minute or two,

50

00:04:35,174 --> 00:04:43,148
and so I played instruments,
especially my favorite songs.

51

00:04:43,148 --> 00:04:48,721
This was the last question,
thank you very much.

52

00:04:48,721 --> 00:04:52,458
We are done with questions.

53

00:04:52,458 --> 00:04:54,460
One more please.

54

00:04:54,460 --> 00:04:56,995
No, that is sufficient.

55

00:04:58,230 --> 00:05:00,232
What about the [inaudible]
situation.

56

00:05:00,232 --> 00:05:06,271
Was it difficult?

57

00:05:06,271 --> 00:05:11,143
We have a very good team,

58

00:05:11,143 --> 00:05:17,483

and we worked well together
resolving any issues

59

00:05:17,483 --> 00:05:20,519

that may arise, and I
think we had a very good

60

00:05:20,519 --> 00:05:22,788

successful flight.

61

00:05:22,788 --> 00:05:23,622

Smile.

62

00:05:23,622 --> 00:05:24,723

>> [Foreign Language Spoken]

63

00:05:24,723 --> 00:05:28,927

>> Thank you very much everyone.

64

00:05:28,927 --> 00:05:31,096

>> Tom, first of all
welcome back.

65

00:05:31,096 --> 00:05:31,764

>> Thanks very much.

66

00:05:31,764 --> 00:05:33,198

Good to be back.

67

00:05:33,198 --> 00:05:34,600

So I guess I'll start with his.

68

00:05:34,600 --> 00:05:36,969

The last couple of days on orbit
were going to be kind of calm

69

00:05:36,969 --> 00:05:38,704

with you guys getting sort
of packed up and ready

70

00:05:38,704 --> 00:05:39,838
to come back to earth.

71

00:05:39,838 --> 00:05:41,440
That kind of changed a
little bit, didn't it?

72

00:05:41,440 --> 00:05:42,775
>> Oh yes.

73

00:05:42,775 --> 00:05:46,478
We were shocked the day before
the space walk to wake up

74

00:05:46,478 --> 00:05:49,748
and find out we're going
to actually start cleaning

75

00:05:49,748 --> 00:05:52,151
out the airlock and go all
the way through execution

76

00:05:52,151 --> 00:05:54,319
of a spacewalk in 48 hours.

77

00:05:54,319 --> 00:05:57,556
And I don't know if that's ever
been done before on station,

78

00:05:57,556 --> 00:05:58,357
with the station crew.

79

00:05:58,357 --> 00:05:59,491
So that was very exciting.

80

00:05:59,491 --> 00:06:01,827
>> As always, I liked to
actually have to get up

81

00:06:01,827 --> 00:06:05,197
and do that, and you guys had
trained for it, but what was it

82

00:06:05,197 --> 00:06:06,265
like to actually get up there

83

00:06:06,265 --> 00:06:08,901
and actually do the
spacewalk itself?

84

00:06:08,901 --> 00:06:11,370
>> It was surprisingly relaxing.

85

00:06:11,370 --> 00:06:13,372
The ground had done such
great preparation for us.

86

00:06:13,372 --> 00:06:15,207
We had a busy day the
day before getting ready.

87

00:06:15,207 --> 00:06:18,010
So when we woke up, Chris
Cassidy, and Chris Hadfield

88

00:06:18,010 --> 00:06:21,447
and I, we just got to looked at
each other and said, this is it.

89

00:06:21,447 --> 00:06:22,848
This is amazing.

90

00:06:22,848 --> 00:06:27,052
I just went by the timeline,
felt safe, didn't feel rushed.

91

00:06:27,052 --> 00:06:30,222

A little bit tired,
but it's very exciting.

92

00:06:30,222 --> 00:06:32,357

>> So besides that, when
you look back on your time

93

00:06:32,357 --> 00:06:33,926

on board the space
station, what are you going

94

00:06:33,926 --> 00:06:36,728

to remember the most about it?

95

00:06:36,728 --> 00:06:37,663

>> Two things.

96

00:06:37,663 --> 00:06:39,031

My relationship with people.

97

00:06:39,031 --> 00:06:41,166

Not just the crew, which is
one of the biggest impressions,

98

00:06:41,166 --> 00:06:43,235

but the relationship with
the people on the ground.

99

00:06:43,235 --> 00:06:46,271

All those voices from around the
world almost become your crew

100

00:06:46,271 --> 00:06:49,608

mates, even though there's no
face necessarily associated

101

00:06:49,608 --> 00:06:50,809

with them.

102

00:06:50,809 --> 00:06:53,612

But you get the feeling
of this huge team effort.

103

00:06:53,612 --> 00:06:59,051

We got a lot of experimental
work done,

104

00:06:59,051 --> 00:07:00,986

refurbishing experiments
and getting some data

105

00:07:00,986 --> 00:07:04,022

for the ground, and working
together as a whole team,

106

00:07:04,022 --> 00:07:05,324

including with everyone

107

00:07:05,324 --> 00:07:07,092

on the ground is what I'm
going to remember the most.

108

00:07:07,092 --> 00:07:08,293

>> So last question.

109

00:07:08,293 --> 00:07:09,528

What are your thoughts and
what was the experience

110

00:07:09,528 --> 00:07:10,896

like on board the Soyuz?

111

00:07:10,896 --> 00:07:12,064

I guess a little bit different
then the space shuttle was,

112

00:07:12,064 --> 00:07:13,232

right?

113

00:07:13,232 --> 00:07:15,801

>> Yes. Definitely

exciting ride on the Soyuz.

114

00:07:15,801 --> 00:07:17,903

I highly recommend it.

115

00:07:17,903 --> 00:07:20,572

The landing is completely
different from the shuttle.

116

00:07:20,572 --> 00:07:24,042

A lot of spinning and rocking.

117

00:07:24,042 --> 00:07:25,010

Just exciting.

118

00:07:25,010 --> 00:07:26,678

I don't know if the
come was going,

119

00:07:26,678 --> 00:07:29,515

but we were just shouting
out, woohoo most of the time

120

00:07:29,515 --> 00:07:30,849

because it's so much fun.

121

00:07:30,849 --> 00:07:33,185

>> Well welcome back, and
we'll see you back in Houston.

122

00:07:33,185 --> 00:07:33,886

>> Thanks Josh.

123

00:07:33,886 --> 00:07:34,553

Really good to be back.
