

1
00:00:00,500 --> 00:00:33,010
[Cheering]

2
00:00:33,010 --> 00:01:12,510
[Background Noise]

3
00:01:12,510 --> 00:01:21,010
[Loudspeaker announcement]

4
00:01:21,010 --> 00:01:28,510
[Background Noise]

5
00:01:28,510 --> 00:02:16,010
[Background Conversations]

6
00:02:16,010 --> 00:02:26,050
[Background Noise]

7
00:02:26,050 --> 00:02:28,510
>> Karen.

8
00:02:28,510 --> 00:02:50,010
[Background Noise]

9
00:02:50,010 --> 00:03:10,510
[Music]

10
00:03:10,510 --> 00:03:18,010
[Background Noise]

11
00:03:18,010 --> 00:03:25,510
[Background Conversations]

12
00:03:25,510 --> 00:03:45,210
[Multiple Speakers]

13
00:03:45,210 --> 00:03:47,490

>> It has, it has been
fantastic it is a lot different

14

00:03:47,490 --> 00:03:49,210

than the last time we
were here in December.

15

00:03:49,210 --> 00:03:52,420

Obviously it has been nice to
be able to do things outside

16

00:03:52,420 --> 00:03:55,250

and the ceremonial
traditions we do are always,

17

00:03:55,250 --> 00:03:57,180

always a lot of fun.

18

00:03:57,180 --> 00:03:58,950

I have not really started
getting nervous yet

19

00:03:58,950 --> 00:04:00,550

or anxious really yet.

20

00:04:00,550 --> 00:04:04,150

I think we are just getting
some good last minute training

21

00:04:04,150 --> 00:04:07,230

in and then relaxing.

22

00:04:07,230 --> 00:04:07,960

It has been great.

23

00:04:07,960 --> 00:04:09,350

>> I have to agree
with Karen, it is,

24

00:04:09,350 --> 00:04:11,460
it is always nice being here,

25

00:04:11,460 --> 00:04:15,010
certainly nicer this
time as flying crew.

26

00:04:15,010 --> 00:04:16,620
First of all because
we know that one week

27

00:04:16,620 --> 00:04:19,060
from now will we strapped
in in our rocket and then

28

00:04:19,060 --> 00:04:20,530
because the weather
is so much nicer,

29

00:04:20,530 --> 00:04:23,570
that the company is fantastic,
the food is great, we have time

30

00:04:23,570 --> 00:04:26,060
to work out, to relax, to study.

31

00:04:26,060 --> 00:04:30,750
But certainly, like Karen said,
I do not feel the tension yet,

32

00:04:30,750 --> 00:04:35,050
it is, somehow it feels that the
flight is still, is still away.

33

00:04:35,050 --> 00:04:37,860
And I noticed that last time
as a backup I was looking

34

00:04:37,860 --> 00:04:40,980
at the crew that was about

to launch and they were calm

35

00:04:40,980 --> 00:04:43,040

and quiet and it
is the same for us.

36

00:04:43,040 --> 00:04:45,320

I think it will come;
it will sneak up on us
