

1
00:00:03,266 --> 00:00:06,596
>> Fifty years ago, a brave
cosmonaut named Valentina

2
00:00:06,596 --> 00:00:09,756
Tereshkova, blazed a trail
for women around the world

3
00:00:09,756 --> 00:00:11,606
by launching in a
Vostok spacecraft

4
00:00:11,656 --> 00:00:13,716
to become the first
female to fly in space.

5
00:00:14,606 --> 00:00:16,986
That groundbreaking
achievement in the early days

6
00:00:16,986 --> 00:00:19,156
of the space race,
was an important step

7
00:00:19,386 --> 00:00:21,926
for women representing
many nations and cultures

8
00:00:22,336 --> 00:00:24,156
to consider new paths in life.

9
00:00:25,046 --> 00:00:28,576
The work of Ms. Tereshkova and
that Sally Ride, 20 years later

10
00:00:28,576 --> 00:00:30,946
as the first American
woman to fly in space,

11

00:00:31,536 --> 00:00:34,826
served as an inspiration to me
to study hard and to conclude

12

00:00:34,826 --> 00:00:37,096
that nothing could stop
me from reaching as far

13

00:00:37,096 --> 00:00:38,736
as I could to achieve my dreams.

14

00:00:39,826 --> 00:00:43,366
It is an honor during this
50th anniversary celebration

15

00:00:43,486 --> 00:00:46,756
of the flight of Valentina
Tereshkova to be flying

16

00:00:46,756 --> 00:00:49,656
with Russian, American,
and Italian colleagues

17

00:00:50,046 --> 00:00:53,236
on this magnificent laboratory
called the International
