

1
00:00:04,537 --> 00:00:08,174
>> Earlier this morning, Chris
Cassidy had noted an object

2
00:00:08,174 --> 00:00:12,178
that was floating past the
station near the station

3
00:00:12,178 --> 00:00:17,683
Progress cargo ship; that
object has been identified

4
00:00:17,683 --> 00:00:22,054
by Russian flight
controllers as an antenna cover

5
00:00:22,054 --> 00:00:24,523
from the Zvezda Service Module.

6
00:00:24,523 --> 00:00:33,599
[Silence]

7
00:00:41,774 --> 00:00:45,911
Again, what we are looking
at is an antenna cover

8
00:00:45,911 --> 00:00:47,746
from the Zvezda Service Module.

9
00:00:47,746 --> 00:00:48,848
This was identified

10
00:00:48,848 --> 00:00:50,783
by the Russian flight
controllers earlier
