

1
00:00:01,367 --> 00:00:03,736
>> In this module we
have four crew quarters.

2
00:00:03,736 --> 00:00:06,972
My crew quarters are here.

3
00:00:06,972 --> 00:00:08,808
Rick's crew quarters.

4
00:00:08,808 --> 00:00:10,976
Mike and Alex's crew quarters.

5
00:00:10,976 --> 00:00:14,346
Sergey and the mission's
crew quarters are

6
00:00:14,346 --> 00:00:16,816
in the service module.

7
00:00:16,816 --> 00:00:20,419
And this is a crew quarter.

8
00:00:20,419 --> 00:00:24,957
The size is similar to
the old telephone box.

9
00:00:24,957 --> 00:00:26,425
These things do not exist.

10
00:00:26,425 --> 00:00:29,361
But actually this is
the place that I stayed

11
00:00:29,361 --> 00:00:32,131
on my first long duration
flight four years ago.

12

00:00:32,131 --> 00:00:34,433

I got to sleep in
the same place.

13

00:00:34,433 --> 00:00:43,075

And when you open the
door you can get in there.

14

00:00:43,075 --> 00:00:45,978

It's, you know, it's a
little taller than my height.

15

00:00:45,978 --> 00:00:47,480

So it's very comfortable.

16

00:00:47,480 --> 00:00:51,650

And you can see there
is a sleeping bag here,

17

00:00:51,650 --> 00:00:53,686

which is very comfortable.

18

00:00:53,686 --> 00:00:55,688

The sleeping back
is fixed to the wall

19

00:00:55,688 --> 00:00:58,891

so that I don't float
away or kick anything.

20

00:00:58,891 --> 00:01:02,194

And it's really comfortable
to fly and float

21

00:01:02,194 --> 00:01:05,931

and sleep in zero gravity.

22

00:01:05,931 --> 00:01:11,137

Here I have a computer,
two computers here.

23

00:01:11,137 --> 00:01:15,040

And one is to check
the schedule,

24

00:01:15,040 --> 00:01:18,144

official emails, procedures.

25

00:01:18,144 --> 00:01:22,014

And there is another
one, same laptop,

26

00:01:22,014 --> 00:01:24,583

but this is for the
Internet access.

27

00:01:24,583 --> 00:01:30,689

And actually I tweet from
this Internet terminal.

28

00:01:30,689 --> 00:01:32,525

I have a camera here.

29

00:01:32,525 --> 00:01:35,027

And also have a headset here.

30

00:01:35,027 --> 00:01:38,797

And using this headset I
can call personal calls

31

00:01:38,797 --> 00:01:41,700

to the ground, which is
very nice to be able to talk

32

00:01:41,700 --> 00:01:46,272

with my family and friends
after hours and on weekends.

33

00:01:46,272 --> 00:01:52,011

Also, using this iPad I
can watch movies and look

34

00:01:52,011 --> 00:01:58,050

at the news program that the
ground folks uplink to us.

35

00:01:58,050 --> 00:02:01,754

And I have some small items
that I use on a daily basis.
