

1
00:00:04,390 --> 00:00:02,470
this is mission control houston we want

2
00:00:05,910 --> 00:00:04,400
to show you a picture of the roses that

3
00:00:08,629 --> 00:00:05,920
are here inside the flight control room

4
00:00:09,910 --> 00:00:08,639
of course this tradition continues

5
00:00:12,470 --> 00:00:09,920
this is something that was started by

6
00:00:15,430 --> 00:00:12,480
the shelton family here in texas back

7
00:00:16,470 --> 00:00:15,440
decades ago it was during sts 26 which

8
00:00:18,150 --> 00:00:16,480
was the first

9
00:00:20,150 --> 00:00:18,160
flight after challenger that is a

10
00:00:22,310 --> 00:00:20,160
mission that discovery flew

11
00:00:23,429 --> 00:00:22,320
and ever since then uh this family has

12
00:00:24,790 --> 00:00:23,439
sent us

13
00:00:25,990 --> 00:00:24,800

these roses here in mission control

14

00:00:27,429 --> 00:00:26,000

during every single shuttle mission

15

00:00:30,230 --> 00:00:27,439

since that time

16

00:00:31,750 --> 00:00:30,240

and they have continued this tradition

17

00:00:33,110 --> 00:00:31,760

during these expeditions that launch up

18

00:00:34,950 --> 00:00:33,120

to the space station which of course it

19

00:00:36,470 --> 00:00:34,960

means a lot to the team here

20

00:00:38,150 --> 00:00:36,480

in houston

21

00:00:40,069 --> 00:00:38,160

we're big on tradition here

22

00:00:41,750 --> 00:00:40,079

at nasa and we are very happy that this

23

00:00:44,470 --> 00:00:41,760

tradition continues what you see there

24

00:00:46,310 --> 00:00:44,480

are three red roses which represent the

25

00:00:48,229 --> 00:00:46,320

next launching crew of alexander

26

00:00:49,270 --> 00:00:48,239

schwarzoff oleg artemyev and steve

27

00:00:52,150 --> 00:00:49,280

swanson

28

00:00:53,750 --> 00:00:52,160

there is always one white rose on these

29

00:00:55,189 --> 00:00:53,760

bouquet of flowers that represents all

30

00:00:57,189 --> 00:00:55,199

those that have lost their lives in the

31

00:00:59,750 --> 00:00:57,199

pursuit of human space flight

32

00:01:02,229 --> 00:00:59,760

so the crews of challenger and colombia

33

00:01:04,229 --> 00:01:02,239

and apollo 1 and everyone else are

34

00:01:06,469 --> 00:01:04,239

remembered each and every time these

35

00:01:07,990 --> 00:01:06,479

bouquets arrive here in mission control

36

00:01:09,990 --> 00:01:08,000

so as always we

37

00:01:12,070 --> 00:01:10,000

send our thanks to the shelton family

38

00:01:13,830 --> 00:01:12,080

and the murphys as well there is now a

39

00:01:16,230 --> 00:01:13,840

second generation as part of those
