

1
00:00:05,749 --> 00:00:03,080
Mac soraya viz the son of a soviet air

2
00:00:07,550 --> 00:00:05,759
force officer he was born in Chelyabinsk

3
00:00:10,160 --> 00:00:07,560
in the southern Ural region of Russia

4
00:00:11,540 --> 00:00:10,170
north of Kazakhstan but his family moved

5
00:00:14,150 --> 00:00:11,550
all over the country during his

6
00:00:16,760 --> 00:00:14,160
childhood all along he intended to

7
00:00:18,769 --> 00:00:16,770
become a military pilot the idea of

8
00:00:21,710 --> 00:00:18,779
becoming a cosmonaut was just an

9
00:00:24,830 --> 00:00:21,720
extension of that idea and I thought I'd

10
00:00:27,800 --> 00:00:24,840
give it a shot because the profession of

11
00:00:29,870 --> 00:00:27,810
a military pilot is very similar to that

12
00:00:33,200 --> 00:00:29,880
of a cosmonaut making quick decisions

13
00:00:35,270 --> 00:00:33,210

making right decisions something risky

14

00:00:37,700 --> 00:00:35,280

something complicated something

15

00:00:40,569 --> 00:00:37,710

challenging something interesting which

16

00:00:43,280 --> 00:00:40,579

brings lots of pleasure if you manage

17

00:00:45,650 --> 00:00:43,290

after high school in Nijinsky near Star

18

00:00:47,660 --> 00:00:45,660

City sir I have graduated from the kasha

19

00:00:50,000 --> 00:00:47,670

Air Force pilot school in the Crimea

20

00:00:52,639 --> 00:00:50,010

with a specialty in command tactical

21

00:00:54,830 --> 00:00:52,649

fighter aviation then he went to the Jew

22

00:00:57,470 --> 00:00:54,840

kofsky Air Force Academy to specialize

23

00:00:59,479 --> 00:00:57,480

in test and exploitation of aircraft and

24

00:01:01,310 --> 00:00:59,489

weapons systems he applied to the

25

00:01:03,319 --> 00:01:01,320

cosmonaut corps and was selected the

26

00:01:05,840 --> 00:01:03,329

year before he finished at the academy

27

00:01:08,120 --> 00:01:05,850

and while training in Star City he also

28

00:01:10,760 --> 00:01:08,130

graduated from the civil service academy

29

00:01:12,440 --> 00:01:10,770

of Russia as a lawyer so Ryan's first

30

00:01:16,580 --> 00:01:12,450

flight was a six-month tour on

31

00:01:19,149 --> 00:01:16,590

expeditions 21 and 22 in 2009 and 2010

32

00:01:21,530 --> 00:01:19,159

during which he completed one space walk

33

00:01:24,770 --> 00:01:21,540

although he retired from the russian air

34

00:01:26,510 --> 00:01:24,780

force as a colonel in 2012 he continues

35

00:01:29,899 --> 00:01:26,520

to work for the cause of human space

36

00:01:32,719 --> 00:01:29,909

exploration good so nice that's why we

37

00:01:35,420 --> 00:01:32,729

send humans in space so that we move

38

00:01:40,039 --> 00:01:35,430

forward we may discover something in the

39

00:01:42,859 --> 00:01:40,049

future maybe maybe not in so near future

40

00:01:46,069 --> 00:01:42,869

but discovering some new worlds new
