

1
00:00:08,230 --> 00:00:05,670
russian eva 38 will be performed by

2
00:00:11,589 --> 00:00:08,240
alexander skortzoff as ev1 wearing the

3
00:00:13,669 --> 00:00:11,599
red stripe suit and oleg artemyev as ev2

4
00:00:15,749 --> 00:00:13,679
wearing the blue stripe suit

5
00:00:18,790 --> 00:00:15,759
oleg will exit the piers docking

6
00:00:21,109 --> 00:00:18,800
compartment or dc1 first and alexander

7
00:00:23,750 --> 00:00:21,119
will hand out the afar unit or the

8
00:00:27,589 --> 00:00:23,760
automatic phased array antenna

9
00:00:31,830 --> 00:00:29,910
the two crew members will translate to

10
00:00:33,510 --> 00:00:31,840
the service module to the larger

11
00:00:49,750 --> 00:00:33,520
diameter of the service module with the

12
00:01:03,349 --> 00:00:51,590
at the service module they will attach

13
00:01:06,710 --> 00:01:05,189

the two crew members will retrieve the

14

00:01:08,710 --> 00:01:06,720

fr cables

15

00:01:10,230 --> 00:01:08,720

open up a connector panel

16

00:01:19,749 --> 00:01:10,240

on the sn

17

00:01:23,510 --> 00:01:20,789

and then

18

00:01:25,429 --> 00:01:23,520

oleg will take photos of the newly made

19

00:01:27,830 --> 00:01:25,439

connectors and then they will close the

20

00:01:37,429 --> 00:01:27,840

connector panel and secure the excess

21

00:01:40,469 --> 00:01:39,190

they will then install

22

00:01:42,630 --> 00:01:40,479

a gap spanner

23

00:01:43,670 --> 00:01:42,640

between two handrails on the service

24

00:01:46,389 --> 00:01:43,680

module

25

00:01:52,469 --> 00:01:46,399

and remove protective covers from the fr

26
00:02:06,630 --> 00:01:54,389
the two crew members will then translate

27
00:02:11,190 --> 00:02:09,589
they will relocate the pvk-2 unit of ops

28
00:02:12,869 --> 00:02:11,200
to navca

29
00:02:25,830 --> 00:02:12,879
and verify the installation of the

30
00:02:30,309 --> 00:02:28,229
oleg will then translate to window

31
00:02:37,190 --> 00:02:30,319
number two of the service module and

32
00:02:45,589 --> 00:02:38,949
the two crew members will translate to

33
00:03:00,710 --> 00:02:47,509
there they will reposition the payload

34
00:03:00,720 --> 00:03:07,270
they will remove tmtc monoblock

35
00:03:14,550 --> 00:03:11,990
and disconnect two tmtc connectors

36
00:03:31,030 --> 00:03:14,560
and install tmtc monoblock to the

37
00:03:46,550 --> 00:03:34,550
they will also remove svpi

38
00:03:53,750 --> 00:03:48,309

then the two crew members will remove

39

00:04:01,030 --> 00:03:55,670

once the jettison is complete they will

40

00:04:01,040 --> 00:04:13,190

and remake the two tmtc connectors

41

00:04:24,870 --> 00:04:15,910

and secure the cable slack of the tmtc

42

00:04:35,189 --> 00:04:26,710

once that's complete the two crew

43

00:04:35,199 --> 00:04:39,430

alexander will go in first

44

00:04:43,510 --> 00:04:41,430

then oleg will hand him the fr

45

00:04:47,189 --> 00:04:43,520

protective covers
