

1
00:00:07,749 --> 00:00:06,230
welcome to the end of increment 40.

2
00:00:08,950 --> 00:00:07,759
we've accomplished a lot we've had a lot

3
00:00:10,390 --> 00:00:08,960
of fun

4
00:00:11,669 --> 00:00:10,400
hopefully everybody else had a lot of

5
00:00:14,150 --> 00:00:11,679
fun too

6
00:00:15,270 --> 00:00:14,160
um this was a team effort

7
00:00:21,269 --> 00:00:15,280
we

8
00:00:23,269 --> 00:00:21,279
guys on the ground had the most

9
00:00:24,790 --> 00:00:23,279
difficult part um

10
00:00:25,910 --> 00:00:24,800
but we really appreciate that i really

11
00:00:28,470 --> 00:00:25,920
like to thank

12
00:00:30,790 --> 00:00:28,480
our lead flight director greg whitney

13
00:00:33,110 --> 00:00:30,800

and his team of lead flight controllers

14

00:00:36,389 --> 00:00:33,120

they did a fantastic job

15

00:00:38,470 --> 00:00:36,399

they had many issues many problems arise

16

00:00:40,389 --> 00:00:38,480

changes come up all the time but every

17

00:00:42,709 --> 00:00:40,399

day they came in they come up with a new

18

00:00:44,790 --> 00:00:42,719

plan and it was a great plan that we got

19

00:00:46,229 --> 00:00:44,800

to execute and we really appreciate it

20

00:00:49,750 --> 00:00:46,239

we did have a good accomplishments up

21

00:00:53,750 --> 00:00:49,760

here sasha and oleg did two ebas

22

00:00:56,709 --> 00:00:53,760

we had a progress leave a progress come

23

00:00:59,590 --> 00:00:56,719

a progress leaving an atv.com got that

24

00:01:01,270 --> 00:00:59,600

we had the spacex leave we had cygnus

25

00:01:03,349 --> 00:01:01,280

come cygnus go

26

00:01:04,869 --> 00:01:03,359

so we did lots of cargo we did lots of

27

00:01:07,750 --> 00:01:04,879

science we actually set the record for a

28

00:01:09,109 --> 00:01:07,760

number of hours of science in a week

29

00:01:11,030 --> 00:01:09,119

maintenance unfortunately we did a lot

30

00:01:12,550 --> 00:01:11,040

of maintenance which is good and bad i

31

00:01:14,630 --> 00:01:12,560

love doing maintenance but these things

32

00:01:16,710 --> 00:01:14,640

broke but we had a good time we really

33

00:01:18,710 --> 00:01:16,720

appreciate everybody's help up here

34

00:01:20,710 --> 00:01:18,720

and it's now it's come to an end and so

35

00:01:22,310 --> 00:01:20,720

i'd like to hand over the command of the

36

00:01:27,510 --> 00:01:22,320

international space station to maxime

37

00:01:33,190 --> 00:01:30,789

thank you very much and welcome to

38

00:01:35,830 --> 00:01:33,200

increment 41.

39

00:01:39,510 --> 00:01:35,840

and i promise that

40

00:01:41,990 --> 00:01:39,520

me personally and our crew

41

00:01:42,870 --> 00:01:42,000

we're gonna do our best

42

00:01:44,870 --> 00:01:42,880

to

43

00:01:45,749 --> 00:01:44,880

continue this great

44

00:01:48,389 --> 00:01:45,759

walk

45

00:01:49,429 --> 00:01:48,399

what guys did and we together did

46

00:01:50,630 --> 00:01:49,439

already

47

00:01:58,230 --> 00:01:50,640

and

48

00:01:59,670 --> 00:01:58,240

need your participation i see

49

00:02:01,109 --> 00:01:59,680

welcome

50

00:02:07,350 --> 00:02:01,119

very good

51
00:02:10,949 --> 00:02:09,589
and guys thanks for that uh steve and

52
00:02:12,790 --> 00:02:10,959
crew it was great working with you guys

53
00:02:16,309 --> 00:02:12,800
this increment and uh we look forward to

54
00:02:18,390 --> 00:02:16,319
continuing with max reed and alex

55
00:02:19,750 --> 00:02:18,400
we're copying and they are very happy
