

#imonboard

1
00:00:03,803 --> 00:00:07,573
Hi, I'm Erin Gray...and
as you might guess,

2
00:00:07,573 --> 00:00:11,243
I like a good spaceship and
luckily we don't have to wait

3
00:00:11,243 --> 00:00:13,279
for the 25th century to see one.

4
00:00:13,279 --> 00:00:17,216
This is Orion, NASA's
latest spacecraft.

5
00:00:17,216 --> 00:00:20,286
Men and women dedicated to
human spaceflight are working

6
00:00:20,286 --> 00:00:24,690
on Orion now, to begin a
whole new era of exploration.

7
00:00:24,690 --> 00:00:27,526
Orion provides power,
navigation,

8
00:00:27,526 --> 00:00:29,628
life support and communications.

9
00:00:29,628 --> 00:00:33,466
It will be able to send humans
farther into our solar system

10
00:00:33,466 --> 00:00:37,470
than we have ever gone
before...to an asteroid

11
00:00:37,470 --> 00:00:40,172

and even, to Mars.
