

1
00:00:05,829 --> 00:00:03,429
russian eva 40 will be conducted by

2
00:00:08,950 --> 00:00:05,839
maxime sarajev in the red stripe suit as

3
00:00:11,350 --> 00:00:08,960
ev1 and alexander samokutyaev in the

4
00:00:13,430 --> 00:00:11,360
blue stripe suit as ev2

5
00:00:16,470 --> 00:00:13,440
alexander will egress the piers docking

6
00:00:18,710 --> 00:00:16,480
compartment 1 or dc1 first and maxine

7
00:00:20,630 --> 00:00:18,720
will follow

8
00:00:23,189 --> 00:00:20,640
they will then translate around the

9
00:00:24,390 --> 00:00:23,199
service module up to the universal work

10
00:00:26,470 --> 00:00:24,400
platform

11
00:00:42,950 --> 00:00:26,480
where the radiomatria experiment is

12
00:00:47,750 --> 00:00:45,830
they will remove radiometria

13
00:00:51,510 --> 00:00:47,760

and get in position to jettison

14

00:00:51,520 --> 00:00:57,189

they will then jettison radiometria

15

00:01:00,150 --> 00:00:58,630

after the jettison

16

00:01:02,790 --> 00:01:00,160

they will translate back to the

17

00:01:04,950 --> 00:01:02,800

universal work platform

18

00:01:08,070 --> 00:01:04,960

and remove the expose our protective

19

00:01:16,149 --> 00:01:10,070

alexander will then take photos of the

20

00:01:16,159 --> 00:01:27,590

the two will then translate back to dc1

21

00:01:32,390 --> 00:01:29,670

they will stow the exposer protective

22

00:01:34,550 --> 00:01:32,400

cover inside dc1

23

00:01:40,469 --> 00:01:34,560

and retrieve the test experiment from

24

00:01:47,429 --> 00:01:42,789

the two will then translate around dc1

25

00:01:52,230 --> 00:01:49,429

maxime will then translate to the mini

26

00:01:54,469 --> 00:01:52,240

research module 2 or mrm2

27

00:01:58,069 --> 00:01:54,479

and alexander will translate around to

28

00:02:00,709 --> 00:01:58,079

the dc1 eva hatch 2 window

29

00:02:04,230 --> 00:02:00,719

maxine will start cutting the antenna

30

00:02:06,709 --> 00:02:04,240

cables of the coors antenna on mrm2

31

00:02:12,630 --> 00:02:06,719

and while he's doing that alexander will

32

00:02:16,229 --> 00:02:14,949

alexander will then translate up the

33

00:02:19,430 --> 00:02:16,239

strela boom

34

00:02:25,110 --> 00:02:19,440

to assist maxime at the coors antenna

35

00:02:29,670 --> 00:02:26,869

alexander will then take photos of

36

00:02:33,350 --> 00:02:29,680

emirm2 where the coors antenna number

37

00:02:38,309 --> 00:02:35,589

they will then translate up to strela

38

00:02:42,710 --> 00:02:38,319

one's platform and get positioned to

39

00:02:46,470 --> 00:02:42,720

jettison coors one antenna

40

00:02:48,390 --> 00:02:46,480

they will jettison the core's antenna

41

00:02:51,270 --> 00:02:48,400

once the jettison is complete they will

42

00:02:53,910 --> 00:02:51,280

translate back down the strela

43

00:02:56,630 --> 00:02:53,920

to coors number two antenna and remove

44

00:02:58,630 --> 00:02:56,640

it in the same way

45

00:03:00,390 --> 00:02:58,640

alexander will also take photos of this

46

00:03:02,309 --> 00:03:00,400

location

47

00:03:04,949 --> 00:03:02,319

they will go back to the strela's

48

00:03:07,910 --> 00:03:04,959

platform for the jettison of coors

49

00:03:12,229 --> 00:03:10,390

they will jettison coors number two

50

00:03:14,630 --> 00:03:12,239

in the same way they did course number

51
00:03:23,190 --> 00:03:16,869
the two will then translate back down

52
00:03:30,789 --> 00:03:26,949
and then back around to the eva ladder

53
00:03:33,750 --> 00:03:30,799
maxine will egress dc1 first followed by

54
00:03:35,990 --> 00:03:33,760
alexander

55
00:03:37,670 --> 00:03:36,000
they will close and lock the hatch of
