

 @astro_reid

1
00:00:10,150 --> 00:00:08,549
hi people of nasa i'm abby warjust i'm

2
00:00:11,990 --> 00:00:10,160
jack russell rose and we're from

3
00:00:13,990 --> 00:00:12,000
carbondale illinois

4
00:00:15,509 --> 00:00:14,000
and we were wondering when you first

5
00:00:17,269 --> 00:00:15,519
arrived at the international space

6
00:00:18,790 --> 00:00:17,279
station were there any things that you

7
00:00:21,269 --> 00:00:18,800
encountered that you didn't originally

8
00:00:23,429 --> 00:00:21,279
anticipate and then being in the space

9
00:00:25,509 --> 00:00:23,439
station for about four months are there

10
00:00:26,870 --> 00:00:25,519
things that still surprise you

11
00:00:28,390 --> 00:00:26,880
thanks so much

12
00:00:29,910 --> 00:00:28,400
bye

13
00:00:31,750 --> 00:00:29,920

so that's a great question when i first

14

00:00:32,870 --> 00:00:31,760

got here what was unexpected i would

15

00:00:34,790 --> 00:00:32,880

have to say

16

00:00:36,630 --> 00:00:34,800

everything absolutely everything i

17

00:00:39,590 --> 00:00:36,640

thought i knew what it would be like to

18

00:00:41,110 --> 00:00:39,600

look down at earth from 250 miles up i

19

00:00:43,190 --> 00:00:41,120

thought i knew what it would be like to

20

00:00:45,430 --> 00:00:43,200

just float around but i had no idea and

21

00:00:47,110 --> 00:00:45,440

so when i first got here uh

22

00:00:49,190 --> 00:00:47,120

i was really scared because there was

23

00:00:50,549 --> 00:00:49,200

just so many new experiences my body

24

00:00:52,310 --> 00:00:50,559

couldn't couldn't soak them all up quick

25

00:00:54,310 --> 00:00:52,320

enough now that i've been here for four

26

00:00:56,389 --> 00:00:54,320

months this feels natural to me floating

27

00:00:59,270 --> 00:00:56,399

is great it makes everything easier

28

00:01:00,630 --> 00:00:59,280

except eating small candies peanuts

29

00:01:02,150 --> 00:01:00,640

chocolate coated

30

00:01:04,549 --> 00:01:02,160

or candy-coated chocolates that's always

31

00:01:05,670 --> 00:01:04,559

difficult but aside from that it's just
