

#imonboard

1  
00:00:00,766 --> 00:00:02,468  
[ Music ]

2  
00:00:02,468 --> 00:00:06,072  
>> I'd like to introduce to  
NASA's latest spacecraft, Orion.

3  
00:00:06,072 --> 00:00:11,644  
Orion is meant for  
deep space travel.

4  
00:00:11,644 --> 00:00:15,381  
Missions could take us to  
an asteroid, even onto Mars.

5  
00:00:15,381 --> 00:00:19,885  
You might say Orion is morphing  
the way we think of exploration.

6  
00:00:19,885 --> 00:00:21,387  
Men and women all  
over the nation,

7  
00:00:21,387 --> 00:00:24,523  
all over the world have  
been building Orion.

8  
00:00:24,523 --> 00:00:26,559  
Orion is made up of  
a crew module able

9  
00:00:26,559 --> 00:00:28,794  
to hold 4 astronauts.

10  
00:00:28,794 --> 00:00:30,463  
You want power?

11  
00:00:30,463 --> 00:00:33,632  
Orion has a service module

providing power and propulsion.

12

00:00:33,632 --> 00:00:35,534

There's also a launch  
abort system

13

00:00:35,534 --> 00:00:38,737

for crew safety during ascent.

14

00:00:38,737 --> 00:00:43,709
