loop to them and we've got you live on

9
00:00:20,630 --> 00:00:18,960
video in the lab as well

10
00:00:22,150 --> 00:00:20,640
that's great i think butch is in the gym

11
00:00:24,390 --> 00:00:22,160
doing some science but if he can put

12
00:00:26,870 --> 00:00:24,400
that stuff down sure he'll be by how's

13
00:00:27,990 --> 00:00:26,880

everybody doing down there

14

00:00:29,509 --> 00:00:28,000

yeah we're doing great down here

15

00:00:31,269 --> 00:00:29,519

appreciate you taking the time to visit

16

00:00:33,190 --> 00:00:31,279

with us

17

00:00:35,110 --> 00:00:33,200

yeah nice if i was sitting in the back

18

00:00:36,549 --> 00:00:35,120

of number seven for uh for a quick ride

19

00:00:38,229 --> 00:00:36,559

over the weekend but i think i'll take

20

00:00:39,670 --> 00:00:38,239

it up here for now

21

00:00:41,030 --> 00:00:39,680

well you know i'm pretty partial to uh

22

00:00:42,470 --> 00:00:41,040

flying around the number five jet but

23

00:00:44,869 --> 00:00:42,480

that looks like a pretty cool

24

00:00:46,790 --> 00:00:44,879

place to fly around as well

25

00:00:48,310 --> 00:00:46,800

oh no i'm talking about the the blue and

26

00:00:49,670 --> 00:00:48,320

gold number seven if it's still a

27

00:00:51,350 --> 00:00:49,680

two-seater and it's over at ellington

28

00:00:52,869 --> 00:00:51,360

i'd take that one out i think uh

29

00:00:54,630 --> 00:00:52,879

backseat ride would sound great right

30

00:00:56,229 --> 00:00:54,640

about now

31

00:00:58,069 --> 00:00:56,239

yeah we've got eight of the hornets over

32

00:00:59,830 --> 00:00:58,079

there right now number seven is the two

33

00:01:01,110 --> 00:00:59,840

seaters over there with an empty back

34

00:01:05,509 --> 00:01:01,120

seat if you want to come down and catch

35

00:01:10,070 --> 00:01:07,910

yeah well give me uh give me about

36

00:01:12,149 --> 00:01:10,080

11 days and i'll i'm not sure i'll be

37

00:01:14,070 --> 00:01:12,159

ready after landing but uh but i'd love

38

00:01:16,230 --> 00:01:14,080

to come for a w so this is captain

39

00:01:19,590 --> 00:01:16,240
wilmore butch with a uh excellent

40

00:01:21,510 --> 00:01:19,600
arrival out of the japanese module

41

00:01:23,350 --> 00:01:21,520
yeah like some of our aerobatic stunts

42

00:01:25,670 --> 00:01:23,360
that you just performed there first off

43

00:01:27,350 --> 00:01:25,680
happy halloween to you guys as well

44

00:01:36,149 --> 00:01:27,360
sometimes the speed gets up a little bit

45

00:01:42,469 --> 00:01:38,630
this is our german volcanologist

46

00:01:44,710 --> 00:01:42,479
dr alex gerst so uh yeah he's got some

47

00:01:46,069 --> 00:01:44,720
time and uh light civil and i'm trying

48

00:01:47,749 --> 00:01:46,079
to get him out to a carrier here when we

49

00:01:49,109 --> 00:01:47,759
get back home so i think that'd be

50

00:01:51,030 --> 00:01:49,119
fantastic

51
00:01:52,230 --> 00:01:51,040
yeah absolutely for sure

52
00:01:55,190 --> 00:01:52,240
hey guys

53
00:01:57,990 --> 00:01:55,200
thanks for coming by for a visit

54
00:02:01,510 --> 00:01:58,000
yeah we appreciate it

55
00:02:06,469 --> 00:02:03,590
all right it's always about 70 degrees

56
00:02:08,229 --> 00:02:06,479
in here there's not a cloud in the sky

57
00:02:10,309 --> 00:02:08,239
so it's pretty much been that way for

58
00:02:12,309 --> 00:02:10,319
the last 160 days at least since i've

59
00:02:14,869 --> 00:02:12,319
gotten up here

60
00:02:17,110 --> 00:02:14,879
at least that sounds very nice

61
00:02:18,550 --> 00:02:17,120
yeah we missed the houston summer so

62
00:02:20,229 --> 00:02:18,560
we're not going to be uh bummed out

63
00:02:22,470 --> 00:02:20,239

about that i guess butch got most of it

64

00:02:23,589 --> 00:02:22,480

but uh but we missed it so it would be

65

00:02:24,710 --> 00:02:23,599

nice when we get back i think it's

66

00:02:27,750 --> 00:02:24,720

probably pretty great that right there

67

00:02:31,670 --> 00:02:29,350

oh absolutely uh this is going to be

68

00:02:33,430 --> 00:02:31,680

very awesome to see you guys up here uh

69

00:02:37,509 --> 00:02:33,440

and we're down here this is a pretty

70

00:02:41,589 --> 00:02:40,070

that's great for us to talk to you guys

71

00:02:43,270 --> 00:02:41,599

hey my wife and daughters are coming to

72

00:02:45,830 --> 00:02:43,280

the show on sunday and they were asking

73

00:02:47,430 --> 00:02:45,840

me what time you guys started and she

74

00:02:48,949 --> 00:02:47,440

said to ask some friends so i'll just

75

00:02:52,390 --> 00:02:48,959

ask you what time do y'all kick off on

76

00:02:52,400 --> 00:02:56,390

but the show will be at 14 30.

77

00:02:59,509 --> 00:02:58,309

14 30. i thought it was around 1500 i'm

78

00:03:03,030 --> 00:02:59,519

glad you told me so that won't be late

79

00:03:06,869 --> 00:03:04,710

wait we really appreciate you taking out

80

00:03:08,710 --> 00:03:06,879

the time uh to talk to us and it's a

81

00:03:10,869 --> 00:03:08,720

real pleasure for us and uh we're we're

82

00:03:12,790 --> 00:03:10,879

honored to be able to be here to talk to

83

00:03:14,790 --> 00:03:12,800

you and uh we appreciate what what you

84

00:03:17,350 --> 00:03:14,800

are doing for us up there and uh we'll

85

00:03:19,270 --> 00:03:17,360

see you when you get back

86

00:03:20,869 --> 00:03:19,280

actually he's fishing yeah i agree uh

87

00:03:23,270 --> 00:03:20,879

it's an honor for us to talk to you guys

88

00:03:25,350 --> 00:03:23,280

as well and uh you know we we have a

89

00:03:26,869 --> 00:03:25,360

rule with all the mcs around the world

90

00:03:28,869 --> 00:03:26,879

that they have to end all transmissions

91

00:03:30,470 --> 00:03:28,879

with fly navy while we're up here so hey
