

1

00:00:00,060 --> 00:00:03,860

Hello football fans and greetings from the International Space Station

2

00:00:03,860 --> 00:00:07,549

I'm Expedition 42 Commander and Navy Captain

3

00:00:07,549 --> 00:00:11,080

Barry "Butch" Wilmore of NASA, and yes, a big Titans fan

4

00:00:11,080 --> 00:00:15,110

and I'm Air Force Colonel and NASA astronaut Terry Virts

5

00:00:15,110 --> 00:00:18,650

a huge Ravens but also a fan of the Houston Texans

6

00:00:18,650 --> 00:00:21,930

where Butch and I now both call home

7

00:00:21,930 --> 00:00:25,300

Now even though our teams didn't make it to the big game, you know we will be watching the Hawks and the Pats

8

00:00:25,300 --> 00:00:29,689

square off today as we take a break from our scientific research that is helping to

9

00:00:29,689 --> 00:00:30,630

start us on our journey to

10

00:00:30,630 --> 00:00:33,710

Mars and when we get there now that will really

11

00:00:33,710 --> 00:00:38,950

be super. For now, from our sky box 260 miles above the Earth, this is the

12

00:00:38,950 --> 00:00:40,989

International Space Station signing off.
