

ВЫХОД

ИВТ
СТАН

1
00:00:11,280 --> 00:00:22,870
uh

2
00:00:27,109 --> 00:00:25,029
and the foundation

3
00:00:31,349 --> 00:00:27,119
keeps authentic

4
00:00:36,310 --> 00:00:33,830
headquarters but a year later after he

5
00:00:39,670 --> 00:00:36,320
traded death as you remember he died in

6
00:00:40,869 --> 00:00:39,680
on the 27th so march 1968

7
00:00:43,430 --> 00:00:40,879
since

8
00:00:46,549 --> 00:00:43,440
the furniture was taken first from his

9
00:01:18,310 --> 00:00:46,559
authentic study and occupies different

10
00:01:18,320 --> 00:01:26,789
a little bitty photographer

11
00:01:26,799 --> 00:01:50,950
um

12
00:01:55,030 --> 00:01:53,510
right here you see some

13
00:01:57,990 --> 00:01:55,040

brought from space

14

00:01:58,789 --> 00:01:58,000

by helen sharman have a look

15

00:02:00,709 --> 00:01:58,799

well

16

00:02:03,109 --> 00:02:00,719

here you see dependence on the flags and

17

00:02:04,950 --> 00:02:03,119

the colors which were taken by her and

18

00:02:07,590 --> 00:02:04,960

then delivered from space the polar

19

00:02:09,270 --> 00:02:07,600

androgynous docking peripheral unit and

20

00:02:11,910 --> 00:02:09,280

at the background you see the flaps

21

00:02:18,390 --> 00:02:11,920

flowing space flags that's traditionally

22

00:02:24,150 --> 00:02:20,309

that was the beginning of them together

23

00:02:24,160 --> 00:02:36,070

yes

24

00:02:39,910 --> 00:02:37,750

here in the middle you see in the

25

00:02:42,309 --> 00:02:39,920

collection and so use transportation

26

00:03:29,430 --> 00:02:42,319

nickel once

27

00:03:29,440 --> 00:03:36,070

attention please

28

00:03:39,830 --> 00:03:38,149

um you know it's a

29

00:03:41,589 --> 00:03:39,840

it's kind of an interesting and surreal

30

00:03:43,430 --> 00:03:41,599

experience right now we're about two

31

00:03:45,430 --> 00:03:43,440

weeks from launch we're getting ready to

32

00:03:47,270 --> 00:03:45,440

leave for baikonur on friday uh here two

33

00:03:49,190 --> 00:03:47,280

days from now

34

00:03:51,190 --> 00:03:49,200

and and really that's the the last stage

35

00:03:52,869 --> 00:03:51,200

the final stage before we get into the

36

00:03:54,550 --> 00:03:52,879

rocket and and lift off for the

37

00:03:56,229 --> 00:03:54,560

international space station

38

00:03:57,910 --> 00:03:56,239

um so i think that we're all ready to

39

00:04:00,630 --> 00:03:57,920

fly we've been delayed a couple of

40

00:04:02,550 --> 00:04:00,640

months because of a progress mishap

41

00:04:04,149 --> 00:04:02,560

but we got to spend that time resting

42

00:04:06,390 --> 00:04:04,159

and spending that time with family and

43

00:04:08,070 --> 00:04:06,400

doing a little final preparation so you

44

00:04:09,830 --> 00:04:08,080

know when the when the rocket is ready i

45

00:04:11,750 --> 00:04:09,840

think we're going to be ready to go very

46

00:04:13,910 --> 00:04:11,760

excited this is uh this is kind of a

47

00:04:15,910 --> 00:04:13,920

lifelong dream for me that's coming true
