

A man with short dark hair, wearing a dark long-sleeved shirt, is shown from the chest up in a control room. He is looking towards the left of the frame with a slight smile. In the background, there are several computer monitors. The monitor on the left shows a 3D visualization of a globe with red and blue lines and data points. The room is dimly lit with blue and red ambient lighting.

A Moment With
Kimiya Yui

1
00:00:20,870 --> 00:00:18,470
i was born really small village in japan

2
00:00:23,509 --> 00:00:20,880
when i was a boy i wanted to become an

3
00:00:25,670 --> 00:00:23,519
astronaut or astronomer

4
00:00:27,750 --> 00:00:25,680
at the same time nasa like sent a

5
00:00:30,070 --> 00:00:27,760
voyager and also

6
00:00:32,870 --> 00:00:30,080
space shuttle was developed and i saw

7
00:00:36,229 --> 00:00:32,880
that first launch on the tv and that

8
00:00:38,709 --> 00:00:36,239
also inspired me and that's why i wanted

9
00:00:41,910 --> 00:00:38,719
to become an astronaut when i graduated

10
00:00:44,790 --> 00:00:41,920
from high school i decided to enter

11
00:00:47,590 --> 00:00:44,800
japanese military academy at that time i

12
00:00:50,069 --> 00:00:47,600
lost my dream

13
00:00:52,869 --> 00:00:50,079

we didn't have any path to become an

14

00:00:56,389 --> 00:00:52,879

astronaut from the military

15

00:00:57,510 --> 00:00:56,399

i happened to watch the movie named the

16

00:01:00,389 --> 00:00:57,520

right stuff

17

00:01:02,310 --> 00:01:00,399

in that movie u.s military testified

18

00:01:05,189 --> 00:01:02,320

became an astronaut

19

00:01:07,990 --> 00:01:05,199

i thought oh that's it maybe in the

20

00:01:10,710 --> 00:01:08,000

future japanese space agency may

21

00:01:13,030 --> 00:01:10,720

abstract an astronaut from the military

22

00:01:16,469 --> 00:01:13,040

test pilot

23

00:01:18,550 --> 00:01:16,479

my wife found the information that jaxa

24

00:01:21,670 --> 00:01:18,560

japanese space agency is looking for a

25

00:01:23,350 --> 00:01:21,680

new astronaut and she recommended that i

26

00:01:26,230 --> 00:01:23,360

should take that

27

00:01:28,710 --> 00:01:26,240

examination that worked really well
