

1  
00:00:12,310 --> 00:00:08,870  
i think that the cool thing about

2  
00:00:13,910 --> 00:00:12,320  
science is that no matter

3  
00:00:16,390 --> 00:00:13,920  
what endeavor it is there's going to be

4  
00:00:18,790 --> 00:00:16,400  
some enormous benefit either immediately

5  
00:00:20,470 --> 00:00:18,800  
or tangentially to that exploration so

6  
00:00:22,630 --> 00:00:20,480  
if we go to mars and

7  
00:00:24,550 --> 00:00:22,640  
it ends up being a zero-sum journey it

8  
00:00:25,910 --> 00:00:24,560  
doesn't matter in that moment because

9  
00:00:26,790 --> 00:00:25,920  
you'll discover so many things that

10  
00:00:29,189 --> 00:00:26,800  
could

11  
00:00:30,710 --> 00:00:29,199  
cure solve some problem that

12  
00:00:33,670 --> 00:00:30,720  
we've been faced with long ago and had
