

A photograph of a Mars rover on the surface of Mars. The rover is white with a blue NASA logo on its side. It is parked on a reddish-brown, rocky terrain. In the background, there are large, layered rock formations under a hazy, orange sky. The text "MARS ROVER" is overlaid on the image in large, bold, orange letters with a black outline. A blue diagonal shape is present on the left side of the image.

MARS ROVER

1
00:00:08,310 --> 00:00:06,070
this thing is a space exploration

2
00:00:09,990 --> 00:00:08,320
vehicle the suv this would get sent

3
00:00:11,589 --> 00:00:10,000
years before astronauts would ever show

4
00:00:12,950 --> 00:00:11,599
up this would be sitting there waiting

5
00:00:15,669 --> 00:00:12,960
for them the astronauts would come down

6
00:00:17,990 --> 00:00:15,679
in a small lander get out and then get

7
00:00:19,990 --> 00:00:18,000
in this and they drive all day every day

8
00:00:23,109 --> 00:00:20,000
living and working and breathing out of

9
00:00:25,029 --> 00:00:23,119
here you would live in a habitat but you

10
00:00:27,589 --> 00:00:25,039
would do long excursions out here so

11
00:00:29,189 --> 00:00:27,599
instead of driving you know an hour away

12
00:00:31,990 --> 00:00:29,199
and then working your way back you could

13
00:00:34,229 --> 00:00:32,000

drive days away and work your way back

14

00:00:35,510 --> 00:00:34,239

so we can expand our search radius on
