

1
00:00:09,760 --> 00:00:47,270
uh

2
00:00:47,280 --> 00:01:37,590
um

3
00:01:37,600 --> 00:01:40,630
okay

4
00:01:40,640 --> 00:02:20,309
it was before the launch of uh

5
00:02:20,319 --> 00:02:24,710
alert

6
00:02:24,720 --> 00:03:03,190
that's

7
00:04:26,550 --> 00:03:42,949
um

8
00:04:26,560 --> 00:04:46,629
so

9
00:04:51,830 --> 00:04:48,550
international space station expedition

10
00:04:53,590 --> 00:04:51,840
47 flight engineer and 48 commander jeff

11
00:04:55,830 --> 00:04:53,600
williams we're here at red square in the

12
00:04:57,430 --> 00:04:55,840
kremlin you've just finished your final

13
00:04:59,590 --> 00:04:57,440

exams in the space station russian

14

00:05:01,270 --> 00:04:59,600

segment and in the soyuz how are you

15

00:05:02,550 --> 00:05:01,280

going to be spending your next week here

16

00:05:04,469 --> 00:05:02,560

in russia before you head off to

17

00:05:06,469 --> 00:05:04,479

baikonur for your mission well this is

18

00:05:08,070 --> 00:05:06,479

the few days that we have between final

19

00:05:10,710 --> 00:05:08,080

exams and then we do this traditional

20

00:05:12,629 --> 00:05:10,720

visit to red square and go on the bike

21

00:05:14,469 --> 00:05:12,639

and are well have almost a week where i

22

00:05:16,070 --> 00:05:14,479

kind of get things in order i'm going to

23

00:05:18,870 --> 00:05:16,080

be spending some time on the phone of

24

00:05:20,790 --> 00:05:18,880

course with with family and friends

25

00:05:22,070 --> 00:05:20,800

as they finish their final plans to come

26

00:05:23,189 --> 00:05:22,080

to the launch and of course i have to

27

00:05:25,189 --> 00:05:23,199

get my

28

00:05:28,390 --> 00:05:25,199

things together to get ready for the

29

00:05:29,990 --> 00:05:28,400

trip down to baikonur next week

30

00:05:32,550 --> 00:05:30,000

this is going to be your third trip to

31

00:05:34,070 --> 00:05:32,560

the international space station is there

32

00:05:36,310 --> 00:05:34,080

anything different about your

33

00:05:38,310 --> 00:05:36,320

preparations this time or your emotions

34

00:05:39,830 --> 00:05:38,320

or your feelings in general about what's

35

00:05:40,950 --> 00:05:39,840

going to make this special and different

36

00:05:43,270 --> 00:05:40,960

for you

37

00:05:45,670 --> 00:05:43,280

well it occurred to me that my first

38

00:05:48,070 --> 00:05:45,680

visit to the space station was in 2000

39

00:05:50,629 --> 00:05:48,080

and i was there twice as you said for

40

00:05:53,909 --> 00:05:50,639

long stays since then and now i'm going

41

00:05:56,230 --> 00:05:53,919

back for the third long visit

42

00:05:58,390 --> 00:05:56,240

and it occurred to me that i've had the

43

00:05:59,909 --> 00:05:58,400

opportunity to really cover the history

44

00:06:02,550 --> 00:05:59,919

of the building of the international

45

00:06:04,550 --> 00:06:02,560

space station and now its assembly is

46

00:06:06,950 --> 00:06:04,560

complete we finished it up about the

47

00:06:09,590 --> 00:06:06,960

time i was there last

48

00:06:11,590 --> 00:06:09,600

my visit before that was halfway through

49

00:06:13,830 --> 00:06:11,600

so now it's in full utilization mode and

50

00:06:16,309 --> 00:06:13,840

i look forward to

51
00:06:18,790 --> 00:06:16,319
personally sort of completing the the

52
00:06:21,350 --> 00:06:18,800
story of the international space station

53
00:06:23,430 --> 00:06:21,360
with that in mind i've also

54
00:06:25,270 --> 00:06:23,440
decided that i'm going to try to bring

55
00:06:27,590 --> 00:06:25,280
the history of the space station space

56
00:06:30,230 --> 00:06:27,600
station to the folks that are following

57
00:06:33,430 --> 00:06:30,240
using social media and other media

58
00:06:34,790 --> 00:06:33,440
to remind folks just how incredible

59
00:06:37,510 --> 00:06:34,800
the station is and what an

60
00:06:40,230 --> 00:06:37,520
accomplishment it is

61
00:06:42,629 --> 00:06:40,240
among this international partnership

62
00:06:44,230 --> 00:06:42,639
how can your fans and the public follow

63
00:06:45,909 --> 00:06:44,240

you on social media

64

00:06:47,990 --> 00:06:45,919

well with some help

65

00:06:50,390 --> 00:06:48,000

with some of my friends in houston we've

66

00:06:52,150 --> 00:06:50,400

got a facebook page up and running and

67

00:06:54,309 --> 00:06:52,160

of course i'll be using twitter as well

68

00:06:56,629 --> 00:06:54,319

to get the word out as we go through the

69

00:06:59,270 --> 00:06:56,639

different milestones of the mission

70

00:07:01,990 --> 00:06:59,280

and also to do a little retrospective

71

00:07:04,150 --> 00:07:02,000

look back at the different significant

72

00:07:05,830 --> 00:07:04,160

milestones as we
