

1  
00:00:06,869 --> 00:00:04,150  
project sidekick's goal is to empower

2  
00:00:08,470 --> 00:00:06,879  
astronauts on the iss with assistance

3  
00:00:10,549 --> 00:00:08,480  
when and where they need it and we want

4  
00:00:13,030 --> 00:00:10,559  
to do that by connecting them with

5  
00:00:14,789 --> 00:00:13,040  
remote expertise and with providing a

6  
00:00:17,109 --> 00:00:14,799  
holographic instruction manual for

7  
00:00:18,870 --> 00:00:17,119  
certain tasks onboard the iss psychic

8  
00:00:21,349 --> 00:00:18,880  
leverages the microsoft hololens

9  
00:00:23,670 --> 00:00:21,359  
technology to enable users to render

10  
00:00:26,070 --> 00:00:23,680  
annotations in each other's worlds we

11  
00:00:29,589 --> 00:00:26,080  
perform extensive certification in both

12  
00:00:35,990 --> 00:00:29,599  
the c9 waitlist zero g flight as well as

13  
00:00:40,389 --> 00:00:38,389

in december 2015 we launched two of

14

00:00:43,990 --> 00:00:40,399

these devices to the international space

15

00:00:44,000 --> 00:00:49,110

do you say you can see us oh my god

16

00:00:53,189 --> 00:00:51,590

in february 2016 scott kelly

17

00:00:55,270 --> 00:00:53,199

successfully checked out the sidekick

18

00:00:57,350 --> 00:00:55,280

application by making the first skype

19

00:00:59,110 --> 00:00:57,360

call from space station to mission

20

00:01:01,029 --> 00:00:59,120

control

21

00:01:02,229 --> 00:01:01,039

we messed around with it for like two

22

00:01:04,549 --> 00:01:02,239

hours and it
