

1  
00:00:04,309 --> 00:00:02,149  
hi i'm heather paul

2  
00:00:05,990 --> 00:00:04,319  
hey i'm chris cassidy we just did a

3  
00:00:10,390 --> 00:00:06,000  
great thing today

4  
00:00:14,230 --> 00:00:12,230  
so that was pretty cool i'm astronaut

5  
00:00:16,550 --> 00:00:14,240  
chris cassidy we just did a fit check

6  
00:00:18,230 --> 00:00:16,560  
inside the orion vehicle what'd you

7  
00:00:19,990 --> 00:00:18,240  
think heather i thought it was great as

8  
00:00:21,349 --> 00:00:20,000  
a mechanical engineer getting inside the

9  
00:00:24,070 --> 00:00:21,359  
suit that's part of the highlight of my

10  
00:00:26,230 --> 00:00:24,080  
career here at nasa yeah checking out

11  
00:00:27,910 --> 00:00:26,240  
the visibility and reach of the hand

12  
00:00:29,750 --> 00:00:27,920  
controllers and seeing what buttons we

13  
00:00:31,269 --> 00:00:29,760

could push is really cool stuff that's

14

00:00:33,270 --> 00:00:31,279

right we're working on the designs for

15

00:00:35,750 --> 00:00:33,280

our next exploration vehicle and getting

16

00:00:37,750 --> 00:00:35,760

to get into the vehicle get in the suits

17

00:00:39,110 --> 00:00:37,760

actually see how the mechanisms work

18

00:00:40,630 --> 00:00:39,120

it's a really important part of our
