

1  
00:00:14,080 --> 00:00:26,390

okay

2  
00:00:30,230 --> 00:00:28,070

i would like to take this opportunity

3  
00:00:31,669 --> 00:00:30,240

and say happy space exploration day to

4  
00:00:34,229 --> 00:00:31,679

everybody

5  
00:00:37,910 --> 00:00:34,239

today all of russia is celebrating this

6  
00:00:37,920 --> 00:00:41,670

on the same day today

7  
00:00:45,990 --> 00:00:43,510

we are celebrating

8  
00:00:49,510 --> 00:00:46,000

the 55th anniversary of the first

9  
00:00:51,350 --> 00:00:49,520

legendary space flight by yuri gagarin

10  
00:00:52,630 --> 00:00:51,360

our very own and i would like to address

11  
00:00:55,270 --> 00:00:52,640

the international

12  
00:00:57,270 --> 00:00:55,280

space station crew you are at work for

13  
00:00:59,590 --> 00:00:57,280

this holiday

14

00:01:04,070 --> 00:00:59,600

and i would like to say uh much success

15

00:01:08,550 --> 00:01:06,630

thank you so much mr president

16

00:01:11,429 --> 00:01:08,560

thank you so much it's so nice to hear

17

00:01:15,429 --> 00:01:13,429

it's uh a

18

00:01:18,149 --> 00:01:15,439

point of pride and privilege for us to

19

00:01:19,590 --> 00:01:18,159

be up here on this day specifically and

20

00:01:22,789 --> 00:01:19,600

we are so

21

00:01:25,429 --> 00:01:22,799

happy that all this experience

22

00:01:28,149 --> 00:01:25,439

that has been accumulated since that

23

00:01:30,310 --> 00:01:28,159

first flight by yuri gagart has been

24

00:01:32,789 --> 00:01:30,320

saved multiplied

25

00:01:35,030 --> 00:01:32,799

and is being used successfully as part

26

00:01:36,550 --> 00:01:35,040  
of the international space station

27

00:01:38,830 --> 00:01:36,560  
program

28

00:01:40,550 --> 00:01:38,840  
along with our friends and

29

00:01:44,230 --> 00:01:40,560  
partners and

30

00:01:50,310 --> 00:01:47,990  
hello and uh happy space exploration day

31

00:01:52,469 --> 00:01:50,320  
we are here to uh commemorate this

32

00:01:55,749 --> 00:01:52,479  
wonderful location as part of our

33

00:01:57,670 --> 00:01:55,759  
international crew

34

00:02:01,749 --> 00:01:57,680  
i am so thankful to be here for this

35

00:02:07,429 --> 00:02:05,109  
and it's due to our wonderful

36

00:02:15,030 --> 00:02:07,439  
well-formed and well-executed friendship

37

00:02:19,110 --> 00:02:16,229  
okay

38

00:02:21,350 --> 00:02:19,120

it seems like we've lost the station

39

00:02:24,070 --> 00:02:21,360

in any case i would like to say uh take

40

00:02:25,910 --> 00:02:24,080

care to everybody who's on station today

41

00:02:27,510 --> 00:02:25,920

and i would like to use this opportunity

42

00:02:30,630 --> 00:02:27,520

again and say

43

00:02:31,830 --> 00:02:30,640

how wonderful and critical it is for

44

00:02:33,589 --> 00:02:31,840

all of us

45

00:02:35,190 --> 00:02:33,599

that regardless of all the difficulties

46

00:02:36,390 --> 00:02:35,200

that we're faced with

47

00:02:38,630 --> 00:02:36,400

down on earth

48

00:02:40,790 --> 00:02:38,640

we have you working next to each other

49

00:02:44,550 --> 00:02:40,800

helping each other supporting each other

50

00:02:46,869 --> 00:02:44,560

performing these most critical uh tasks

51  
00:02:49,430 --> 00:02:46,879  
that are set in front of not just our

52  
00:02:50,790 --> 00:02:49,440  
individual countries but our

53  
00:02:52,390 --> 00:02:50,800  
whole world

54  
00:02:54,470 --> 00:02:52,400  
uh with our

55  
00:02:56,070 --> 00:02:54,480  
partnership with the us and the other

56  
00:02:58,309 --> 00:02:56,080  
partners on the international space

57  
00:03:01,509 --> 00:02:58,319  
station this is the platform that has

58  
00:03:05,270 --> 00:03:01,519  
our legendary space explorers

59  
00:03:07,910 --> 00:03:05,280  
live and work and it's there to

60  
00:03:10,790 --> 00:03:07,920  
serve the purposes of domestic

61  
00:03:14,149 --> 00:03:10,800  
and international industry

62  
00:03:15,509 --> 00:03:14,159  
to develop and further our partnerships

63  
00:03:17,350 --> 00:03:15,519

to

64

00:03:19,830 --> 00:03:17,360

gain further possibilities and

65

00:03:22,390 --> 00:03:19,840

opportunities to uh develop commercial

66

00:03:23,430 --> 00:03:22,400

space exploration was oceanic space

67

00:03:26,949 --> 00:03:23,440

center

68

00:03:30,070 --> 00:03:26,959

that will soon uh go online

69

00:03:32,550 --> 00:03:30,080

and support manned flights

70

00:03:35,030 --> 00:03:32,560

so it's wonderful to see this picture

71

00:03:37,350 --> 00:03:35,040

with cosmonauts and astronauts in it

72

00:03:39,350 --> 00:03:37,360

i just wanted to make sure that uh you

73

00:03:44,149 --> 00:03:39,360

guys can hear me and with that over to

74

00:03:51,990 --> 00:03:47,670

we heard your words mr president

75

00:03:54,470 --> 00:03:52,000

and we thank you uh for the attention

76  
00:03:56,229 --> 00:03:54,480  
that you dedicate to the space programs

77  
00:03:57,910 --> 00:03:56,239  
and we are so happy and thrilled to be

78  
00:03:59,990 --> 00:03:57,920  
part of this partnership

79  
00:04:01,589 --> 00:04:00,000  
and we are confident beyond words that

80  
00:04:03,030 --> 00:04:01,599  
everything that we do up here everything

81  
00:04:05,030 --> 00:04:03,040  
that is done

82  
00:04:06,710 --> 00:04:05,040  
in the name in uh

83  
00:04:08,949 --> 00:04:06,720  
as part of this program

84  
00:04:11,350 --> 00:04:08,959  
will be serving the good of the uh

85  
00:04:13,270 --> 00:04:11,360  
international space community and global

86  
00:04:16,390 --> 00:04:13,280  
community overall

87  
00:04:17,909 --> 00:04:16,400  
yeah we'll be uh worrying until you guys

88  
00:04:20,150 --> 00:04:17,919

have returned safely

89

00:04:22,469 --> 00:04:20,160

the best of the best to all of you

90

00:04:23,670 --> 00:04:22,479

and now let's transition

91

00:04:24,469 --> 00:04:23,680

over

92

00:04:26,390 --> 00:04:24,479

to

93

00:04:40,629 --> 00:04:26,400

our legend

94

00:04:40,639 --> 00:04:47,270

what it's

95

00:04:51,749 --> 00:04:49,430

first things first i would like to say

96

00:04:53,590 --> 00:04:51,759

thank you so much

97

00:04:56,390 --> 00:04:53,600

for your attention

98

00:04:59,430 --> 00:04:56,400

for your support

99

00:05:01,430 --> 00:04:59,440

for everything you do for our

100

00:05:03,990 --> 00:05:01,440

nation's space programs

101  
00:05:05,990 --> 00:05:04,000  
we are so thrilled

102  
00:05:13,510 --> 00:05:06,000  
and so happy

103  
00:05:17,990 --> 00:05:16,070  
we've had a lot of meetings today

104  
00:05:20,629 --> 00:05:18,000  
with all kinds of folks and everybody is

105  
00:05:22,830 --> 00:05:20,639  
so thankful to you personally for your

106  
00:05:26,870 --> 00:05:22,840  
uh care and your

107  
00:05:28,150 --> 00:05:26,880  
support and for the sheer fact that

108  
00:05:30,390 --> 00:05:28,160  
our

109  
00:05:32,710 --> 00:05:30,400  
new space center

110  
00:05:35,510 --> 00:05:32,720  
will be

111  
00:05:36,830 --> 00:05:35,520  
the launch pad of the future for uh

112  
00:05:40,870 --> 00:05:36,840  
crews of the

113  
00:05:45,110 --> 00:05:40,880

future launching is part of

114

00:05:45,120 --> 00:05:48,469

this is so exciting

115

00:05:48,479 --> 00:05:55,510

what is happening and what has happened

116

00:06:01,350 --> 00:05:58,870

what yuri gagarin did is he

117

00:06:03,189 --> 00:06:01,360

made a call and we heeded the call

118

00:06:05,590 --> 00:06:03,199

everybody across the globe

119

00:06:07,189 --> 00:06:05,600

and today they were celebrating the 55th

120

00:06:10,150 --> 00:06:07,199

anniversary of that

121

00:06:11,990 --> 00:06:10,160

first flight he again gathered us all

122

00:06:13,909 --> 00:06:12,000

together

123

00:06:15,909 --> 00:06:13,919

uh it's a rare occurrence that we have

124

00:06:19,189 --> 00:06:15,919

an opportunity to be seeing and talking

125

00:06:21,590 --> 00:06:19,199

to the international crew of six

126  
00:06:23,029 --> 00:06:21,600  
that represent the best of what humanity

127  
00:06:26,230 --> 00:06:23,039  
has to offer

128  
00:06:28,469 --> 00:06:26,240  
our cosmonauts and astronauts and mr

129  
00:06:31,270 --> 00:06:28,479  
shkova and i are so happy

130  
00:06:33,270 --> 00:06:31,280  
and privileged and delighted to be

131  
00:06:35,110 --> 00:06:33,280  
here at the vast oceanic space center

132  
00:06:36,469 --> 00:06:35,120  
facility

133  
00:06:39,510 --> 00:06:36,479  
it's a

134  
00:06:42,710 --> 00:06:39,520  
gigantic facility

135  
00:06:44,150 --> 00:06:42,720  
with the assembly complex

136  
00:06:45,670 --> 00:06:44,160  
and

137  
00:06:47,909 --> 00:06:45,680  
just to think that

138  
00:06:51,029 --> 00:06:47,919

none of this was here just recently is

139

00:06:55,029 --> 00:06:52,390

this

140

00:06:58,710 --> 00:06:55,039

cutting-edge facility

141

00:07:04,070 --> 00:07:01,350

i've seen a lot of

142

00:07:05,830 --> 00:07:04,080

space centers before i have something to

143

00:07:08,469 --> 00:07:05,840

compare it back to

144

00:07:10,550 --> 00:07:08,479

baikonur primarily

145

00:07:13,670 --> 00:07:10,560

this is what brought us into the space

146

00:07:15,909 --> 00:07:13,680

game this is this is our learning curve

147

00:07:18,629 --> 00:07:15,919

this was the platform that gave us

148

00:07:22,790 --> 00:07:18,639

reason to be proud today to be seeing

149

00:07:28,150 --> 00:07:24,790

all the terminals all the plastic

150

00:07:30,790 --> 00:07:28,160

facilities all the assembly facilities

151  
00:07:32,150 --> 00:07:30,800  
everything uh combined into this one uh

152  
00:07:34,469 --> 00:07:32,160  
well-oiled

153  
00:07:37,270 --> 00:07:34,479  
center that will uh be the launch pad of

154  
00:07:38,950 --> 00:07:37,280  
the future and it just so happens to be

155  
00:07:41,350 --> 00:07:38,960  
it's a beautiful day there's so many

156  
00:07:50,550 --> 00:07:41,360  
sunny days here for a year and we're

157  
00:07:54,550 --> 00:07:52,790  
a lot of nature here

158  
00:07:57,029 --> 00:07:54,560  
and again it's a delight to be here

159  
00:07:59,270 --> 00:07:57,039  
we've been talking to uh teams of

160  
00:08:02,309 --> 00:07:59,280  
experts meeting a lot of different folks

161  
00:08:03,270 --> 00:08:02,319  
from uh all walks of life and uh

162  
00:08:05,270 --> 00:08:03,280  
they're

163  
00:08:07,350 --> 00:08:05,280

very happy to be part of this we've

164

00:08:09,350 --> 00:08:07,360

talked to them about all kinds of things

165

00:08:12,790 --> 00:08:09,360

about their accommodations here and

166

00:08:14,150 --> 00:08:12,800

about their achievements to date and

167

00:08:16,230 --> 00:08:14,160

we can only

168

00:08:18,710 --> 00:08:16,240

express our hope and our confidence that

169

00:08:20,629 --> 00:08:18,720

this is the beginning of uh

170

00:08:21,670 --> 00:08:20,639

turning a new page

171

00:08:30,710 --> 00:08:21,680

in

172

00:08:34,230 --> 00:08:30,720

of the uruguayans monument today

173

00:08:38,630 --> 00:08:34,240

which was a remarkable occasion too

174

00:08:43,190 --> 00:08:41,350

and the spirit of uh morale that is

175

00:08:44,550 --> 00:08:43,200

shared by everybody here this sense of

176  
00:08:46,470 --> 00:08:44,560  
community

177  
00:08:48,150 --> 00:08:46,480  
is something to experience firsthand

178  
00:08:52,949 --> 00:08:48,160  
thank you so much there's plenty work to

179  
00:08:57,030 --> 00:08:55,110  
dear mr shkola

180  
00:08:59,030 --> 00:08:57,040  
and mr leonov

181  
00:09:00,949 --> 00:08:59,040  
i can only say

182  
00:09:03,430 --> 00:09:00,959  
that everything we do

183  
00:09:06,070 --> 00:09:03,440  
in the area of space exploration

184  
00:09:07,829 --> 00:09:06,080  
rests on the shoulder of giants which

185  
00:09:09,350 --> 00:09:07,839  
were you your friends and your

186  
00:09:11,750 --> 00:09:09,360  
colleagues

187  
00:09:14,790 --> 00:09:11,760  
everybody who saw this industry industry

188  
00:09:18,550 --> 00:09:17,350

you are at our brand new facility today

189

00:09:20,070 --> 00:09:18,560

and

190

00:09:20,829 --> 00:09:20,080

interestingly enough that i'm thinking

191

00:09:23,829 --> 00:09:20,839

about

192

00:09:27,350 --> 00:09:23,839

it you mentioned the city of ugly gorsk

193

00:09:29,910 --> 00:09:27,360

where you were uh for the monument of uh

194

00:09:32,550 --> 00:09:29,920

monument unveiling the city that's close

195

00:09:33,829 --> 00:09:32,560

to the vast oceanic space center yeah

196

00:09:35,509 --> 00:09:33,839

the

197

00:09:37,430 --> 00:09:35,519

space center

198

00:09:39,750 --> 00:09:37,440

is going to be used for uh peaceful

199

00:09:42,310 --> 00:09:39,760

purposes primarily in in the interest of

200

00:09:44,230 --> 00:09:42,320

international community

201  
00:09:46,710 --> 00:09:44,240  
but it's located

202  
00:09:50,389 --> 00:09:46,720  
on the territory of the former

203  
00:09:51,350 --> 00:09:50,399  
uh missile base that's right

204  
00:09:53,750 --> 00:09:51,360  
so

205  
00:09:58,150 --> 00:09:53,760  
i would like to uh

206  
00:09:59,750 --> 00:09:58,160  
using your experience and all the uh

207  
00:10:02,470 --> 00:09:59,760  
achievements that are currently under

208  
00:10:05,990 --> 00:10:02,480  
our belt with our us and european and

209  
00:10:08,470 --> 00:10:06,000  
japanese colleagues to be able to move

210  
00:10:10,389 --> 00:10:08,480  
peacefully and gradually towards

211  
00:10:13,670 --> 00:10:10,399  
strengthening

212  
00:10:16,550 --> 00:10:13,680  
and embracing the international

213  
00:10:18,150 --> 00:10:16,560

community via space to be able to

214

00:10:20,310 --> 00:10:18,160

understand each other better down here

215

00:10:22,150 --> 00:10:20,320

on earth

216

00:10:25,910 --> 00:10:22,160

i would like to say that you're

217

00:10:28,630 --> 00:10:25,920

huge your humongous body of experience

218

00:10:31,670 --> 00:10:28,640

is most definitely going to be used in

219

00:10:32,949 --> 00:10:31,680

this regard and it's only you it's not

220

00:10:35,269 --> 00:10:32,959

only you and your colleagues i would

221

00:10:37,030 --> 00:10:35,279

like to say congratulations to i'd like

222

00:10:39,990 --> 00:10:37,040

to say uh

223

00:10:41,750 --> 00:10:40,000

happy space exploration day to those who

224

00:10:44,630 --> 00:10:41,760

built this facility which has been a

225

00:10:48,230 --> 00:10:44,640

high priority among the breadth of our

226

00:10:52,470 --> 00:10:50,630

national priority uh

227

00:10:54,230 --> 00:10:52,480

program plan

228

00:10:56,230 --> 00:10:54,240

and i would like to

229

00:10:58,829 --> 00:10:56,240

express my confidence that everything

230

00:11:03,030 --> 00:10:58,839

that is required

231

00:11:05,750 --> 00:11:03,040

for specialists and experts

232

00:11:07,910 --> 00:11:05,760

and crew members to continue working

233

00:11:12,230 --> 00:11:07,920

will be built will be

234

00:11:15,590 --> 00:11:13,750

you must have seen the little town

235

00:11:17,670 --> 00:11:15,600

that's already there

236

00:11:19,750 --> 00:11:17,680

hopefully this town will be

237

00:11:21,829 --> 00:11:19,760

a comfortable place of residence for

238

00:11:23,509 --> 00:11:21,839

everybody who've dedicated

239

00:11:25,110 --> 00:11:23,519

uh all they've got to the space

240

00:11:26,630 --> 00:11:25,120
