ЗАГЛУШКА  
ТЕЛЕКАМЕРЫ

1  
00:00:21,250 --> 00:00:17,550  
having tried to fly once,

2  
00:00:25,270 --> 00:00:22,720  
you really can't do it anymore,

3  
00:00:27,830 --> 00:00:25,280  
but every pilot

4  
00:00:30,070 --> 00:00:27,840  
constantly wants to improve,

5  
00:00:35,330 --> 00:00:30,080  
improve and wants to fly

6  
00:00:38,930 --> 00:00:35,340  
faster higher, so astronautics is

7  
00:00:51,220 --> 00:00:38,940  
just the thing that gives these flights faster

8  
00:00:57,560 --> 00:00:54,790  
humanity cannot permanently

9  
00:01:00,830 --> 00:00:57,570  
stay on our planet, that is,

10  
00:01:00,830 --> 00:01:03,820  
anyway, I think that now and in the future,

11  
00:01:36,499 --> 00:01:08,000  
research will continue on the nearest planets to which
