

SPEEDY TIME

EPISODE-1

KIBO AIRLOCK

1
00:00:00,406 --> 00:00:01,036
>> Hi, everybody.

2
00:00:01,286 --> 00:00:04,216
I'm going to do my best over
the next few months to show you

3
00:00:04,220 --> 00:00:06,640
in bite-size chunks this
wonderful place I get to call home.

4
00:00:06,680 --> 00:00:08,380
I'm going to have to
talk fast, so we're going

5
00:00:08,386 --> 00:00:09,466
to call it speedy time.

6
00:00:09,666 --> 00:00:10,466
All right.

7
00:00:10,466 --> 00:00:11,666
The first one is
the gym air lock.

8
00:00:11,896 --> 00:00:12,426
This is so cool.

9
00:00:12,666 --> 00:00:13,486
It has a slide table.

10
00:00:13,856 --> 00:00:14,566
We open it up.

11
00:00:14,766 --> 00:00:15,636
The slide table comes out.

12
00:00:15,636 --> 00:00:17,656

We can put all sorts of things on it, put it back in,

13

00:00:17,756 --> 00:00:19,186

depressurize it because it's an air lock,

14

00:00:19,406 --> 00:00:20,386

and then slide it outside.

15

00:00:20,566 --> 00:00:21,346

We have a robotic arm.

16

00:00:21,466 --> 00:00:23,256

We can control it with this wonderful panel here

17

00:00:23,536 --> 00:00:24,516

or they can control it from the ground.

18

00:00:24,576 --> 00:00:26,916

How cool. And then, once it's outside, we put all sorts

19

00:00:26,916 --> 00:00:27,966

of experiments out there.

20

00:00:28,176 --> 00:00:29,816

Let's take a look because it's gorgeous.

21

00:00:30,206 --> 00:00:31,576

This is the gym window.

22

00:00:33,016 --> 00:00:37,356

Woo. And there are some of the experiments,

23

00:00:37,626 --> 00:00:40,196
including the robotic arm,
which then controls all

24

00:00:40,196 --> 00:00:42,536
of those experiments once
they're outside and puts them

25

00:00:42,536 --> 00:00:44,846
in the right position, or, in
the case of small satellites,

26

00:00:45,046 --> 00:00:46,116
it actually launches them.

27

00:00:46,316 --> 00:00:46,906
How cool is that?

28

00:00:47,356 --> 00:00:50,236
That is your first
speedy time video.
