

THE ISS AS A

NATIONAL LAB

---

1  
00:00:14,070 --> 00:00:11,509  
we have access to the space station a

2  
00:00:15,030 --> 00:00:14,080  
company a university another government

3  
00:00:17,670 --> 00:00:15,040  
entity

4  
00:00:19,750 --> 00:00:17,680  
pretty much anybody can apply to have

5  
00:00:22,710 --> 00:00:19,760  
their experiments sent to space station

6  
00:00:24,390 --> 00:00:22,720  
we are providing a path for researchers

7  
00:00:26,150 --> 00:00:24,400  
national lab means that there's

8  
00:00:29,189 --> 00:00:26,160  
designated research time there's

9  
00:00:30,470 --> 00:00:29,199  
designated upmass set aside for

10  
00:00:33,670 --> 00:00:30,480  
equipment

11  
00:00:35,030 --> 00:00:33,680  
payload developers and research on board

12  
00:00:36,790 --> 00:00:35,040  
we're helping them understand the

13  
00:00:38,310 --> 00:00:36,800

resources that are in space when

14

00:00:40,310 --> 00:00:38,320

researchers are new

15

00:00:42,069 --> 00:00:40,320

to the space station we're providing

16

00:00:44,709 --> 00:00:42,079

them that input for how do you get your

17

00:00:47,670 --> 00:00:44,719

experiment from the conceptual stage all

18

00:00:59,430 --> 00:00:47,680

the way to flown in space and actually
