

ASTRONAUT MOMENTS:  
**SCOTT TINGLE**

1  
00:00:14,950 --> 00:00:12,789

[Music]

2  
00:00:17,990 --> 00:00:14,960

i've had the opportunity to do a lot of

3  
00:00:20,390 --> 00:00:18,000

great things in a 30-year career

4  
00:00:23,590 --> 00:00:20,400

engineering flying airplanes and now

5  
00:00:25,269 --> 00:00:23,600

here with nasa and the groups of people

6  
00:00:27,750 --> 00:00:25,279

that i've worked with have been

7  
00:00:30,390 --> 00:00:27,760

absolutely incredible well the one

8  
00:00:32,069 --> 00:00:30,400

consistency across the board is that

9  
00:00:33,750 --> 00:00:32,079

they have provided me with a lifetime of

10  
00:00:35,990 --> 00:00:33,760

inspiration

11  
00:00:38,549 --> 00:00:36,000

so i grew up in a town of randolph

12  
00:00:39,830 --> 00:00:38,559

massachusetts kind of a small town and

13  
00:00:41,670 --> 00:00:39,840

the folks at home

14

00:00:43,990 --> 00:00:41,680

knew how driven i was they knew how

15

00:00:46,470 --> 00:00:44,000

interested in science engineering and

16

00:00:48,709 --> 00:00:46,480

space flight i was and they were nothing

17

00:00:50,150 --> 00:00:48,719

but supportive the whole way there's

18

00:00:52,069 --> 00:00:50,160

literally thousands of people that i've

19

00:00:54,310 --> 00:00:52,079

worked with in my military career

20

00:00:56,389 --> 00:00:54,320

absolutely unbelievable some of the most

21

00:00:58,549 --> 00:00:56,399

inspirational young americans you would

22

00:01:00,389 --> 00:00:58,559

ever meet in your life you'll walk down

23

00:01:02,950 --> 00:01:00,399

in the in the bowels of the ship and

24

00:01:05,509 --> 00:01:02,960

you'll see these 18 19 20 year olds

25

00:01:07,750 --> 00:01:05,519

covered head to toe in greece just

26

00:01:09,910 --> 00:01:07,760

coming off a 24-hour shift so that we

27

00:01:12,400 --> 00:01:09,920

could fly our airplane safely and

28

00:01:14,550 --> 00:01:12,410

efficiently

29

00:01:16,870 --> 00:01:14,560

[Music]

30

00:01:18,710 --> 00:01:16,880

absolutely inspirational when things get

31

00:01:20,630 --> 00:01:18,720

hard for me or challenging i think of

32

00:01:21,590 --> 00:01:20,640

those folks and it makes me want to do

33

00:01:23,590 --> 00:01:21,600

better

34

00:01:25,190 --> 00:01:23,600

and that's one of the things that

35

00:01:26,630 --> 00:01:25,200

i'm finding is very consistent

36

00:01:28,149 --> 00:01:26,640

throughout my career

37

00:01:30,149 --> 00:01:28,159

when i came here we've got civil

38

00:01:33,190 --> 00:01:30,159

servants we've got contractors we've got

39

00:01:35,429 --> 00:01:33,200

military you name it and we all have one

40

00:01:38,310 --> 00:01:35,439

goal one mission and watching the team

41

00:01:40,630 --> 00:01:38,320

work together is is just inspiring my

42

00:01:42,710 --> 00:01:40,640

ultimate inspiration is the love and

43

00:01:44,389 --> 00:01:42,720

support i get from my family

44

00:01:45,990 --> 00:01:44,399

they've been so solid over the years

45

00:01:47,590 --> 00:01:46,000

that there's absolutely no way i could

46

00:01:51,550 --> 00:01:47,600

be doing all this without their without

47

00:01:58,709 --> 00:01:56,870

[Music]

48

00:02:00,990 --> 00:01:58,719

i'm scott tingle and i'm a nasa

49

00:02:10,790 --> 00:02:01,000

astronaut

50

00:02:13,430 --> 00:02:10,800

[Music]
