

*Happy
New Year* From the
International Space Station

That's pretty popular in Japan.

1
00:00:05,749 --> 00:00:03,030
my fondest uh new year's memory we

2
00:00:07,909 --> 00:00:05,759
always had the new year's eve party at

3
00:00:09,990 --> 00:00:07,919
my house which was kind of cool so all

4
00:00:11,270 --> 00:00:10,000
of our friends would come over family

5
00:00:13,990 --> 00:00:11,280
would come over

6
00:00:16,150 --> 00:00:14,000
when the clock would strike 12.

7
00:00:17,510 --> 00:00:16,160
you know we're all together as a family

8
00:00:18,550 --> 00:00:17,520
you know hugging each other all that

9
00:00:20,150 --> 00:00:18,560
good stuff

10
00:00:22,310 --> 00:00:20,160
but the big tree for staying up that

11
00:00:24,950 --> 00:00:22,320
late was my dad's chili

12
00:00:27,429 --> 00:00:24,960
and let me tell you his chili is good

13
00:00:28,870 --> 00:00:27,439

and we would wait until midnight even if

14

00:00:31,109 --> 00:00:28,880

you weren't having fun

15

00:00:33,830 --> 00:00:31,119

just to have some of that chili so for

16

00:00:35,910 --> 00:00:33,840

me that's what i think of every new year

17

00:00:38,229 --> 00:00:35,920

is staying up till midnight and waiting

18

00:00:39,910 --> 00:00:38,239

for my dad's chili and we'll see what we

19

00:00:42,069 --> 00:00:39,920

do up here if i can even stay up that

20

00:00:44,470 --> 00:00:42,079

late and i think we have a vegetarian

21

00:00:46,150 --> 00:00:44,480

chili and we'll see how that competes

22

00:00:48,549 --> 00:00:46,160

as we transit the earth in different

23

00:00:50,709 --> 00:00:48,559

orbits we get to see snowy regions we

24

00:00:51,430 --> 00:00:50,719

get to see tropical regions we get to

25

00:00:52,389 --> 00:00:51,440

see

26

00:00:54,470 --> 00:00:52,399

middle

27

00:00:56,950 --> 00:00:54,480

weather type regions

28

00:00:59,110 --> 00:00:56,960

and and it's very interesting to think

29

00:01:01,990 --> 00:00:59,120

how everyone is spending christmas and

30

00:01:03,029 --> 00:01:02,000

new years in those in those regions in

31

00:01:05,830 --> 00:01:03,039

japan

32

00:01:09,670 --> 00:01:05,840

in the morning of new year's day people

33

00:01:12,950 --> 00:01:09,680

go out and watch the first sunlight

34

00:01:14,550 --> 00:01:12,960

that's pretty popular in japan

35

00:01:16,469 --> 00:01:14,560

i have a memory

36

00:01:19,190 --> 00:01:16,479

with my father

37

00:01:21,270 --> 00:01:19,200

working in the very very cold

38

00:01:22,630 --> 00:01:21,280

early morning

39

00:01:24,310 --> 00:01:22,640

in tokyo

40

00:01:29,590 --> 00:01:24,320

to watch

41

00:01:31,510 --> 00:01:29,600

fun memory for me

42

00:01:32,310 --> 00:01:31,520

quite honestly i'm a morning person so

43

00:01:33,830 --> 00:01:32,320

it's

44

00:01:37,270 --> 00:01:33,840

typically pretty challenging for me to

45

00:01:38,390 --> 00:01:37,280

stay awake for uh the ball to drop my

46

00:01:40,149 --> 00:01:38,400

ideal

47

00:01:42,069 --> 00:01:40,159

new year's eve would actually probably

48

00:01:43,030 --> 00:01:42,079

be greeting the sunrise on the new

49

00:01:44,550 --> 00:01:43,040

year's

50

00:01:45,830 --> 00:01:44,560

on the new year the first sunrise of the

51

00:01:47,350 --> 00:01:45,840

new year

52

00:01:49,749 --> 00:01:47,360

something that sticks out for me as a

53

00:01:50,870 --> 00:01:49,759

really pleasant new year's eve was

54

00:01:53,590 --> 00:01:50,880

recently

55

00:01:54,469 --> 00:01:53,600

visiting some good friends in colorado

56

00:01:56,389 --> 00:01:54,479

and

57

00:01:58,630 --> 00:01:56,399

hanging out just at someone's house

58

00:02:00,149 --> 00:01:58,640

having a dinner party and playing some

59

00:02:02,870 --> 00:02:00,159

games and

60

00:02:05,109 --> 00:02:02,880

with our kids and our friends

61

00:02:06,630 --> 00:02:05,119

just lots of really good quality time

62

00:02:15,190 --> 00:02:06,640

together with people that we really care
