

1  
00:00:18,870 --> 00:00:15,170

[Music]

2  
00:00:22,109 --> 00:00:18,880  
there is a gift in all of us to look

3  
00:00:25,200 --> 00:00:22,119  
beyond and see only the possibilities to

4  
00:00:28,130 --> 00:00:25,210  
view not just our world but others and

5  
00:00:30,200 --> 00:00:28,140  
wonder what is and what could be

6  
00:00:32,729 --> 00:00:30,210  
[Music]

7  
00:00:36,660 --> 00:00:32,739  
exploration is only limited by the power

8  
00:00:39,270 --> 00:00:36,670  
of our imagination for as long as I can

9  
00:00:44,090 --> 00:00:39,280  
remember I would dream about taking my

10  
00:00:46,410 --> 00:00:44,100  
first steps upon the rusty soil of Mars

11  
00:00:49,950 --> 00:00:46,420  
what would it feel like to stand on a

12  
00:00:50,520 --> 00:00:49,960  
planet with 62% less gravity a greater

13  
00:00:53,549 --> 00:00:50,530

yet

14

00:00:55,979 --> 00:00:53,559

what secrets what wonders would be

15

00:01:00,090 --> 00:00:55,989

revealed to me as I explored this alien

16

00:01:02,850 --> 00:01:00,100

world when my journey bring me to

17

00:01:06,570 --> 00:01:02,860

discover a massive hidden volcano still

18

00:01:09,300 --> 00:01:06,580

erupting with life is it possible that

19

00:01:12,910 --> 00:01:09,310

this is the very forge for the god Mars

20

00:01:18,010 --> 00:01:15,190

perhaps through trailblazing of this

21

00:01:21,040 --> 00:01:18,020

magnificent desolation I would uncover

22

00:01:24,399 --> 00:01:21,050

something far more magical would I find

23

00:01:27,850 --> 00:01:24,409

evidence of an ancient civilization what

24

00:01:31,210 --> 00:01:27,860

messages did they leave behind what were

25

00:01:36,100 --> 00:01:31,220

their hopes and aspirations did they

26

00:01:38,170 --> 00:01:36,110

love cry and smile like us my

27

00:01:40,460 --> 00:01:38,180

imagination would never stop there

28

00:01:43,100 --> 00:01:40,470

just

29

00:01:45,560 --> 00:01:43,110

if I looked hard enough I would truly

30

00:01:50,470 --> 00:01:45,570

find a secret a secret that would

31

00:01:58,310 --> 00:01:53,030

what if I were to discover a hidden

32

00:02:00,470 --> 00:01:58,320

world was water plants and life where

33

00:02:04,670 --> 00:02:00,480

the martian still thrive in a secluded

34

00:02:08,540 --> 00:02:04,680

society what would I say to them what

35

00:02:10,609 --> 00:02:08,550

would they say to me would they take my

36

00:02:14,630 --> 00:02:10,619

presence as a threat

37

00:02:17,920 --> 00:02:14,640

unable to see our commonalities or would

38

00:02:21,020 --> 00:02:17,930

we become friends sharing our feelings

39

00:02:23,840 --> 00:02:21,030

and our dreams

40

00:02:26,240 --> 00:02:23,850

as a scientist I know that these will

41

00:02:28,580 --> 00:02:26,250

not be the discoveries in store but they

42

00:02:32,420 --> 00:02:28,590

are the ones that fuel my exploration

43

00:02:35,210 --> 00:02:32,430

and yet I'm strangely certain what will

44

00:02:37,010 --> 00:02:35,220

be discovered and truth will be far

45

00:02:43,130 --> 00:02:37,020

greater than what I could ever have

46

00:02:46,100 --> 00:02:43,140

imagined my crew and I have spent 10

47

00:02:49,220 --> 00:02:46,110

months traveling to Mars imagining the

48

00:02:52,760 --> 00:02:49,230

very moment we will be there for today
