00:00:16,590 --> 00:00:51,670

[Music]

2
00:00:57,560 --> 00:00:54,950

we called this procedure NASA neither

3
00:00:59,509 --> 00:00:57,570

sleeping nor awake the minimum

4
00:01:02,479 --> 00:00:59,519

sustenance required for six months

5
00:01:04,249 --> 00:01:02,489

twelve months two years whatever limbs

6
00:01:07,700 --> 00:01:04,259

stimulated eight times a day to prevent

7
00:01:12,469 --> 00:01:07,710

muscle atrophy you better enjoy

8
00:01:13,720 --> 00:01:12,479

meditation or in my case have a very

9
00:02:03,950 --> 00:01:13,730

good memory

10
00:02:03,960 --> 00:02:07,260

it's time

11
00:02:19,070 --> 00:02:15,509

I'm off you go then is that it yes we've

12
00:02:21,660 --> 00:02:19,080

been over this so many times that I know

13
00:02:25,050 --> 00:02:21,670

but I also know there used to be a child

14

00:02:29,850 --> 00:02:25,060

playing here she still loved catching

15

00:02:32,490 --> 00:02:29,860

grasshoppers throwing ball as high as he

16

00:02:35,250 --> 00:02:32,500

possibly could that was a lifetime ago

17

00:02:36,900 --> 00:02:35,260

when I'm still in that lifetime if I

18

00:02:40,319 --> 00:02:36,910

don't say goodbye to you now I'll still

19

00:02:47,819 --> 00:02:40,329

be in it keep the memory of that little

20

00:03:03,640 --> 00:02:47,829

boy playing I probably won't be coming

21

00:03:12,670 --> 00:03:07,710

how can you want this think again about

22

00:03:18,220 --> 00:03:12,680

your family about your friends your

23

00:03:22,310 --> 00:03:18,230

whole life I do I think about all of

24

00:03:36,839 --> 00:03:22,320

that I do

25

00:03:41,500 --> 00:03:39,369

without doubt the most challenging

26
00:03:46,030 --> 00:03:41,510
concept for our human brains to process

27
00:03:51,490 --> 00:03:46,040
was leaving earth but I know one day for

28
00:03:56,979 --> 00:03:51,500
my dad will understand as indeed will

29
00:04:00,250 --> 00:03:56,989
the rest of humanity this is a necessity

30
00:04:02,979 --> 00:04:00,260
a fundamental need to push the

31
00:04:05,380 --> 00:04:02,989
boundaries of human understanding to go

32
00:04:08,470 --> 00:04:05,390
beyond our rivers and our hills our

33
00:04:09,010 --> 00:04:08,480
oceans and our mountains even our own

34
00:04:17,319 --> 00:04:09,020
planet

35
00:04:25,119 --> 00:04:20,110
we need to reach further and reach

36
00:04:30,840 --> 00:04:25,129
higher if we want answers after all it's
