

1
00:00:20,950 --> 00:00:14,910
what is space to

2
00:00:26,230 --> 00:00:22,950
we've touched the stars

3
00:00:26,240 --> 00:00:30,710
and placed our feet in tranquil dust

4
00:00:35,190 --> 00:00:32,190
what is it about the unknown

5
00:00:37,350 --> 00:00:35,200
[Music]

6
00:00:41,830 --> 00:00:37,360
the need to explore

7
00:00:41,840 --> 00:00:46,470
to see something for the very first time

8
00:00:46,480 --> 00:00:51,029
to feel something bigger than ourselves

9
00:00:54,950 --> 00:00:53,750
for years we've dreamed researched

10
00:00:58,709 --> 00:00:54,960
designed

11
00:01:01,189 --> 00:00:58,719
and worked together to do the impossible

12
00:01:03,270 --> 00:01:01,199
to go places no woman or man has ever

13
00:01:05,189 --> 00:01:03,280

been

14

00:01:08,070 --> 00:01:05,199

we knew we'd always get there

15

00:01:09,750 --> 00:01:08,080

make our place in the sky

16

00:01:10,830 --> 00:01:09,760

and look at our home

17

00:01:21,109 --> 00:01:10,840

all of

18

00:01:24,149 --> 00:01:22,710

we haven't forgotten that we're still

19

00:01:29,830 --> 00:01:24,159

pioneers

20

00:01:37,510 --> 00:01:32,380

yearning for new horizons

21

00:01:41,590 --> 00:01:40,149

nasa's new orion spacecraft and space

22

00:01:44,870 --> 00:01:41,600

launch system

23

00:01:46,550 --> 00:01:44,880

the most powerful rocket in the world

24

00:01:53,270 --> 00:01:46,560

will take us deeper into space than

25

00:01:58,149 --> 00:01:55,910

launching from american soil our new

26
00:02:01,270 --> 00:01:58,159
vehicles and exploration missions with

27
00:02:04,149 --> 00:02:01,280
reusable and sustainable infrastructure

28
00:02:06,069 --> 00:02:04,159
will take astronauts back to the moon

29
00:02:09,350 --> 00:02:06,079
deep into the unexplored regions of our

30
00:02:11,350 --> 00:02:09,360
solar system and on to mars to unlock

31
00:02:14,949 --> 00:02:11,360
mysteries about the red planet

32
00:02:19,830 --> 00:02:16,949
with the capability to launch and carry

33
00:02:22,790 --> 00:02:19,840
habitation propulsion and logistics

34
00:02:25,190 --> 00:02:22,800
modules for a deep space gateway

35
00:02:27,110 --> 00:02:25,200
nasa's exploration missions with orion

36
00:02:29,350 --> 00:02:27,120
and the space launch system are the

37
00:02:30,630 --> 00:02:29,360
beginning of a new era of deep space

38
00:02:31,830 --> 00:02:30,640

exploration

39

00:02:35,160 --> 00:02:31,840

adventure

40

00:02:39,030 --> 00:02:36,470

[Music]

41

00:02:42,229 --> 00:02:39,040

we are proud of our past

42

00:02:43,670 --> 00:02:42,239

are grateful for our present

43

00:02:46,470 --> 00:02:43,680

and we're hopeful for a future of

44

00:02:48,710 --> 00:02:46,480

research and solving mysteries of mars

45

00:02:50,470 --> 00:02:48,720

our entire solar system

46

00:02:52,229 --> 00:02:50,480

and the unsolved mysteries of our home

47

00:02:53,980 --> 00:02:52,239

planet

48

00:03:01,030 --> 00:02:53,990

earth

49

00:03:04,309 --> 00:03:01,040

[Music]

50

00:03:06,630 --> 00:03:04,319

the future is for us

51

00:03:10,790 --> 00:03:06,640

the brave

52

00:03:10,800 --> 00:03:20,520

it's time to go farther
