

SPACE STATION RESEARCH

INTERSECTING THE MAGICAL
AND THE *TECHNICAL*

1

00:00:01,209 --> 00:00:05,990

THE INTERNATIONAL SPACE STATION IS A
NATIONAL ORBITING LABORATORY EVERY

2

00:00:05,990 --> 00:00:10,130

SINGLE DAY WE ARE ANSWERING BIG
QUESTIONS ABOUT EARTH AND ABOUT SPACE

3

00:00:10,130 --> 00:00:13,670

ABOUT WHERE WE CAME FROM AND ABOUT WHERE
WE'RE GOING BUT THE OTHER THING THAT

4

00:00:13,670 --> 00:00:17,570

WE'RE DOING IS WE'RE LEARNING MORE
QUESTIONS TO ASK AND SO THE QUESTION

5

00:00:17,570 --> 00:00:21,829

REALLY I THINK THAT'S IMPORTANT TO SAY
IS WHO ARE WE IF WE STOP EXPLORING EVERY

6

00:00:21,829 --> 00:00:26,779

DAY IS THE INTERSECTION OF THE MAGICAL
AND THE TECHNICAL OUR JOBS REQUIRE A LOT

7

00:00:26,779 --> 00:00:30,259

OF FOCUS A LOT OF HEADS DOWN DETAILED
WORK BUT THERE'S ALWAYS MOMENTS

8

00:00:30,259 --> 00:00:33,440

THROUGHOUT EVERY DAY THAT YOU STEP BACK
AND YOU REALIZE YOU KNOW WE'RE WORKING

9

00:00:33,440 --> 00:00:37,190

OFF THE PLANET AND MICROGRAVITY IN ONE
OF THE MOST UNFORGIVING ENVIRONMENTS
