

A photograph of Christina Koch inside a spacecraft module. She is lying on her back, smiling at the camera. She is wearing a grey long-sleeved shirt and dark pants. The background is filled with various mission patches and equipment. A large, crinkled orange thermal blanket is visible in the foreground. The text "Christina Koch's Most Memorable Moments in Space Part 3" is overlaid on the image in a white, sans-serif font.

Christina Koch's
*Most Memorable
Moments in Space*
Part 3

1
00:00:00,140 --> 00:00:08,950

[Music]

2
00:00:13,110 --> 00:00:10,790

you know just like those memories of day

3
00:00:15,669 --> 00:00:13,120

one there are a couple flashes that i'll

4
00:00:17,830 --> 00:00:15,679

just never ever forget for example my

5
00:00:20,230 --> 00:00:17,840

very first spacewalk with nick was

6
00:00:22,550 --> 00:00:20,240

obviously incredibly memorable just

7
00:00:23,910 --> 00:00:22,560

because it was the first time i ever had

8
00:00:27,189 --> 00:00:23,920

experienced that and there was one

9
00:00:29,029 --> 00:00:27,199

moment where despite how focused i was

10
00:00:31,589 --> 00:00:29,039

on doing everything right and having it

11
00:00:34,069 --> 00:00:31,599

be my first time out i looked across and

12
00:00:36,229 --> 00:00:34,079

i saw nick working and behind him i saw

13
00:00:37,990 --> 00:00:36,239

the earth gliding by and it was clearer

14

00:00:40,069 --> 00:00:38,000

than i had ever seen it out of any

15

00:00:42,150 --> 00:00:40,079

window on station i had only been on

16

00:00:44,470 --> 00:00:42,160

board for about two weeks

17

00:00:45,830 --> 00:00:44,480

and that at that moment i just felt like

18

00:00:47,350 --> 00:00:45,840

everything i had ever worked for

19

00:00:48,950 --> 00:00:47,360

everything i had ever loved everything i

20

00:00:51,350 --> 00:00:48,960

had ever wanted to contribute to in my

21

00:00:53,990 --> 00:00:51,360

entire life was just culminating in that

22

00:00:55,430 --> 00:00:54,000

moment and recognizing that it was real

23

00:00:57,189 --> 00:00:55,440

there was my friend who i've been

24

00:00:59,510 --> 00:00:57,199

training with for six years right there

25

00:01:01,270 --> 00:00:59,520

with me that was a moment i'll

26

00:01:03,029 --> 00:01:01,280

definitely never forget

27

00:01:05,189 --> 00:01:03,039

going out the door with drew morgan

28

00:01:07,270 --> 00:01:05,199

twice on both spacewalks was awesome

29

00:01:09,590 --> 00:01:07,280

that particular spacewalk series that we

30

00:01:11,750 --> 00:01:09,600

did had some unknowns that couldn't be

31

00:01:13,109 --> 00:01:11,760

simulated in our spacewalk training

32

00:01:15,590 --> 00:01:13,119

facility and so we were really

33

00:01:18,070 --> 00:01:15,600

discovering as we went how the series

34

00:01:19,749 --> 00:01:18,080

was going to unfold and if all the

35

00:01:21,109 --> 00:01:19,759

things that we had planned were really

36

00:01:23,749 --> 00:01:21,119

going to work so that was really

37

00:01:26,950 --> 00:01:23,759

exciting too and then spacewalk with

38

00:01:28,950 --> 00:01:26,960

jessica mir was just an unbelievable

39

00:01:30,630 --> 00:01:28,960

honor and there were times when we

40

00:01:32,390 --> 00:01:30,640

looked at each other for example right

41

00:01:34,710 --> 00:01:32,400

when we came out the hatch we caught

42

00:01:36,469 --> 00:01:34,720

each other's eye and we knew that

43

00:01:39,190 --> 00:01:36,479

we really were honored with this

44

00:01:40,789 --> 00:01:39,200

opportunity to inspire so many and just

45

00:01:42,389 --> 00:01:40,799

hearing our voices talk to mission

46

00:01:43,749 --> 00:01:42,399

control and knowing that two female

47

00:01:45,990 --> 00:01:43,759

voices had never been on the loop

48

00:01:59,190 --> 00:01:46,000

solving those problems together outside
