

SPACESUITS FOR THE NEXT EXPLORERS

“IT’S A GREAT JOB!”

1
00:00:08,150 --> 00:00:05,829
everyone in my generation wasn't alive

2
00:00:09,750 --> 00:00:08,160
the first time we went to the moon and

3
00:00:12,050 --> 00:00:09,760
we want to do it again and we want to do

4
00:00:17,590 --> 00:00:12,060
it better

5
00:00:21,670 --> 00:00:19,349
the spacesuit in general is like a

6
00:00:23,750 --> 00:00:21,680
little mini spacecraft it has almost

7
00:00:25,589 --> 00:00:23,760
every system represented because

8
00:00:27,589 --> 00:00:25,599
ultimately it's a life support system

9
00:00:30,710 --> 00:00:27,599
this is going to keep someone alive in a

10
00:00:32,630 --> 00:00:30,720
very dangerous critical environment

11
00:00:35,270 --> 00:00:32,640
we love what we do we really want to see

12
00:00:37,590 --> 00:00:35,280
the system fly and be useful and help a

13
00:00:39,110 --> 00:00:37,600

person explore the moon in a more

14

00:00:40,470 --> 00:00:39,120

capable manner than they were able to do

15

00:00:43,910 --> 00:00:40,480

during apollo
