00:00:04,950 --> 00:00:02,879
greetings from the international space

3
00:00:07,269 --> 00:00:04,960
station i'm nasa flight engineer mike

hopkins along with my expedition 64

5
00:00:12,629 --> 00:00:10,000
crewmates victor glover shannon walker

6
00:00:14,950 --> 00:00:12,639
suichi naguchi and kate rubins

7
00:00:16,790 --> 00:00:14,960
in november victor shannon suici and i

8
00:00:19,029 --> 00:00:16,800
arrived here aboard the spacex crew

9
00:00:20,710 --> 00:00:19,039
dragon that we named resilience

10
00:00:22,470 --> 00:00:20,720
we selected that name and tribute to

11
00:00:24,470 --> 00:00:22,480
people around the world and to the teams

12
00:00:25,990 --> 00:00:24,480
that helped make our mission possible

13
00:00:27,910 --> 00:00:26,000

during a year that changed all of our

14

00:00:31,750 --> 00:00:27,920

lives we'd also like to remember

15

00:00:33,670 --> 00:00:31,760

everyone we've lost this year

16

00:00:36,310 --> 00:00:33,680

there couldn't be a more fitting name to

17

00:00:37,830 --> 00:00:36,320

describe 2020 the resilience of the

18

00:00:42,069 --> 00:00:37,840

human spirit is something we can truly

19

00:00:45,830 --> 00:00:43,910

as we prepare to observe the holidays

20

00:00:47,270 --> 00:00:45,840

far away from our loved ones we look

21

00:00:49,110 --> 00:00:47,280

down at our precious planet and it

22

00:00:49,520 --> 00:00:49,120

becomes clear how connected we really

23

00:00:51,430 --> 00:00:49,530

are

24

00:00:53,350 --> 00:00:51,440

[Music]

25

00:00:54,869 --> 00:00:53,360

we hope that you are also able to take

26

00:00:57,110 --> 00:00:54,879

the opportunity to celebrate the

27

00:00:59,750 --> 00:00:57,120

holidays before we turn the calendar to

28

00:01:01,190 --> 00:00:59,760

a fresh air with renewed hope and a

29

00:01:02,630 --> 00:01:01,200

spirit for the future

30

00:01:07,640 --> 00:01:02,640

[Music]

31

00:01:18,270 --> 00:01:07,650

happy holidays and happy new year to all
