

1
00:00:11,270 --> 00:00:08,629
[Music]

2
00:00:13,110 --> 00:00:11,280
and we see booster ignition

3
00:00:16,790 --> 00:00:13,120
engines at maximum

4
00:00:25,750 --> 00:00:18,470
i'm a big fan of believing in

5
00:00:29,589 --> 00:00:27,910
we've got hundreds of experiments going

6
00:00:31,429 --> 00:00:29,599
on throughout the time we're on board

7
00:00:34,389 --> 00:00:31,439
every day i'm spending

8
00:00:36,150 --> 00:00:34,399
contributing with innovations in science

9
00:00:38,069 --> 00:00:36,160
technological demonstrations that are

10
00:00:39,530 --> 00:00:38,079
helping out all of humanity and pushing

11
00:00:42,630 --> 00:00:39,540
the boundaries of human existence

12
00:00:44,069 --> 00:00:42,640
[Music]

13
00:00:45,990 --> 00:00:44,079

one of the joys of being up here for

14

00:00:47,270 --> 00:00:46,000

this extended period of time is all of

15

00:00:56,340 --> 00:00:47,280

the wonderful people that i've got to

16

00:00:56,350 --> 00:01:04,149

[Music]

17

00:01:09,109 --> 00:01:06,710

on christmas day we actually had a

18

00:01:14,870 --> 00:01:09,119

cookie decorating contest and actually

19

00:01:18,070 --> 00:01:16,230

i don't think it's a record that i would

20

00:01:19,590 --> 00:01:18,080

even attribute to me it's a record for

21

00:01:21,749 --> 00:01:19,600

our space program i think it's just

22

00:01:23,270 --> 00:01:21,759

another step forward for humanity but i

23

00:01:25,109 --> 00:01:23,280

also don't expect that to be a record

24

00:01:27,270 --> 00:01:25,119

that would last for very long because

25

00:01:36,310 --> 00:01:27,280

we're doing bigger and better things all

26

00:01:39,670 --> 00:01:38,149

i always thought being an astronaut

27

00:01:41,830 --> 00:01:39,680

would be an amazing thing never thought

28

00:01:43,830 --> 00:01:41,840

it would be a real possibility but the

29

00:01:46,870 --> 00:01:43,840

thing that always inspired me about it

30

00:01:48,710 --> 00:01:46,880

was this idea that we get to explore and

31

00:01:55,110 --> 00:01:48,720

do it in a way that benefits all of

32

00:01:55,120 --> 00:02:02,310

[Music]

33

00:02:11,110 --> 00:02:04,970
