

# Russian Spacewalk 52

1  
00:00:08,470 --> 00:00:05,030  
russian space walk 52 will be conducted

2  
00:00:10,549 --> 00:00:08,480  
by oleg artemyev ev1 on the red stripes

3  
00:00:12,629 --> 00:00:10,559  
and denise mataviv

4  
00:00:14,789 --> 00:00:12,639  
ev2 in the blue stripes

5  
00:00:16,630 --> 00:00:14,799  
to start the spacewalk crew will egress

6  
00:00:19,830 --> 00:00:16,640  
poisk with the crew lock bag and the

7  
00:00:23,590 --> 00:00:19,840  
emmi also known as the european robotic

8  
00:00:25,189 --> 00:00:23,600  
arm eva control panel or era eva control

9  
00:00:26,710 --> 00:00:25,199  
panel

10  
00:00:28,550 --> 00:00:26,720  
after turning on their cameras and

11  
00:00:30,550 --> 00:00:28,560  
lights both crew will start translating

12  
00:00:32,709 --> 00:00:30,560  
down the strela booms

13  
00:00:41,190 --> 00:00:32,719

from poisk to the nuka module where

14

00:00:45,830 --> 00:00:43,270

eb2 will install a pallet adapter on

15

00:00:47,029 --> 00:00:45,840

handrail 4401

16

00:00:50,020 --> 00:00:47,039

and crew will work together to

17

00:00:51,510 --> 00:00:50,030

structurally secure the emmi

18

00:00:54,549 --> 00:00:51,520

[Music]

19

00:01:02,229 --> 00:00:54,559

oleg and denis will then mate the cpt

20

00:01:07,270 --> 00:01:05,429

while oleg works the emmi checkout denis

21

00:01:08,789 --> 00:01:07,280

will translate to the basepoint worksite

22

00:01:11,030 --> 00:01:08,799

where he'll remove a total of four

23

00:01:13,400 --> 00:01:11,040

protective covers and take imagery of

24

00:01:34,950 --> 00:01:13,410

the interfaces

25

00:01:38,310 --> 00:01:34,960

[Music]

26  
00:01:40,469 --> 00:01:38,320  
after closing up the emi covers oleg

27  
00:01:42,950 --> 00:01:40,479  
will translate to the ear arm where

28  
00:01:45,030 --> 00:01:42,960  
he'll begin folding back the mli blanket

29  
00:01:46,570 --> 00:01:45,040  
to install one of several era arm

30  
00:01:53,590 --> 00:01:46,580  
handrails

31  
00:01:53,590 --> 00:01:53,600  
[Music]

32  
00:01:57,749 --> 00:01:56,149  
denis will translate over to the era arm

33  
00:01:59,650 --> 00:01:57,759  
where he'll assist with the handrail

34  
00:02:26,390 --> 00:01:59,660  
installs

35  
00:02:27,830 --> 00:02:26,400  
[Music]

36  
00:02:29,830 --> 00:02:27,840  
crew will finish installing the last

37  
00:02:31,750 --> 00:02:29,840  
hand drill near the era arm elbow on

38  
00:02:33,830 --> 00:02:31,760

limb number two

39

00:02:38,869 --> 00:02:33,840

oleg will then take photos of the solar

40

00:02:42,150 --> 00:02:41,110

oleg and denios will translate back to

41

00:02:44,309 --> 00:02:42,160

poisk

42

00:02:49,190 --> 00:02:44,319

and stow the covers as well as the crew

43

00:02:53,430 --> 00:02:51,350

using the same translation path they did

44

00:02:56,869 --> 00:02:53,440

earlier we'll head back down to one of

45

00:02:58,949 --> 00:02:56,879

that nowuka's passive payload interfaces

46

00:03:02,200 --> 00:02:58,959

while working together we'll install the

47

00:03:10,070 --> 00:03:02,210

adapter and remove the manual drive

48

00:03:12,229 --> 00:03:10,080

[Music]

49

00:03:15,509 --> 00:03:12,239

ev1 and ev2 will translate back to the

50

00:03:17,750 --> 00:03:15,519

airlock stow the manual drive

51

00:03:19,270 --> 00:03:17,760

afterwards they'll perform an inventory

52

00:03:21,910 --> 00:03:19,280

and then they'll ingress and close the

53

00:03:24,000 --> 00:03:21,920

hatch finishing out russian spacewalk

54

00:03:37,110 --> 00:03:24,010

52.
