NASA JOHNSON SPACE CENTER

1
00:00:02,930 --> 00:00:01,030

[Music]

2
00:00:05,090 --> 00:00:02,940

Clinton

3
00:00:06,889 --> 00:00:05,100

it's the first word from space before

4
00:00:08,810 --> 00:00:06,899

history is made

5
00:00:10,250 --> 00:00:08,820

from Landing a man on the moon to

6
00:00:12,530 --> 00:00:10,260

assembling the International Space

7
00:00:14,509 --> 00:00:12,540

Station NASA's Johnson Space Center

8
00:00:16,010 --> 00:00:14,519

serves as the iconic beginning to some

9
00:00:17,269 --> 00:00:16,020

of the greatest moments in American

10
00:00:19,130 --> 00:00:17,279

history

11
00:00:21,170 --> 00:00:19,140

moments that are triumphs of engineering

12
00:00:23,029 --> 00:00:21,180

and international cooperation

13
00:00:25,070 --> 00:00:23,039

today we are leveraging our past

14

00:00:27,410 --> 00:00:25,080

successes to create even more daring

15

00:00:29,150 --> 00:00:27,420

missions from the Moon made possible

16

00:00:30,830 --> 00:00:29,160

with the Orion and Gateway programs

17

00:00:33,290 --> 00:00:30,840

which are both orchestrated out of

18

00:00:35,330 --> 00:00:33,300

Johnson the desolate moon will serve as

19

00:00:37,970 --> 00:00:35,340

NASA's jump off point as we journey to

20

00:00:40,190 --> 00:00:37,980

unlock the secrets of the universe and

21

00:00:42,250 --> 00:00:40,200

understand how it all began

22

00:00:45,049 --> 00:00:42,260

today we push forward to the moon

23

00:00:47,270 --> 00:00:45,059

tomorrow we leap to Greater Heights and

24

00:00:49,729 --> 00:00:47,280

new destinations

25

00:00:52,430 --> 00:00:49,739

there is history to be made

26

00:00:54,590 --> 00:00:52,440

in Mission Control we eagerly anticipate

27

00:00:56,810 --> 00:00:54,600

the first Transmissions from unexplored
