

1
00:00:05,390 --> 00:00:03,290
NASA is going back to the Moon

2
00:00:07,550 --> 00:00:05,400
joining forces with International and

3
00:00:09,230 --> 00:00:07,560
Commercial Partners NASA is leading the

4
00:00:11,270 --> 00:00:09,240
partnership that's building and will

5
00:00:14,209 --> 00:00:11,280
operate Gateway Humanity's first space

6
00:00:15,829 --> 00:00:14,219
station in lunar orbit Gateway based at

7
00:00:17,570 --> 00:00:15,839
NASA's Johnson Space Center with

8
00:00:19,790 --> 00:00:17,580
elements across the agency and around

9
00:00:21,830 --> 00:00:19,800
the world will advance human exploration

10
00:00:25,189 --> 00:00:21,840
and further scientific research in deep

11
00:00:27,410 --> 00:00:25,199
space for the benefit of all Humanity

12
00:00:29,269 --> 00:00:27,420
built with a minimum 15-year lifespan

13
00:00:31,130 --> 00:00:29,279

around the Moon Gateway will be an

14

00:00:33,229 --> 00:00:31,140

essential element for long-term Artemis

15

00:00:35,750 --> 00:00:33,239

missions and the stepping stone to Mars

16

00:00:38,030 --> 00:00:35,760

but we're not doing it alone for more

17

00:00:40,130 --> 00:00:38,040

than 40 years NASA has partnered with

18

00:00:42,049 --> 00:00:40,140

space agencies around the world to

19

00:00:44,209 --> 00:00:42,059

conduct meaningful research on the space

20

00:00:45,830 --> 00:00:44,219

shuttle as well as build and operate the

21

00:00:47,990 --> 00:00:45,840

International Space Station

22

00:00:49,369 --> 00:00:48,000

and today we're expanding those

23

00:00:51,770 --> 00:00:49,379

relationships

24

00:00:53,569 --> 00:00:51,780

NASA has once again teamed up with our

25

00:00:56,029 --> 00:00:53,579

International and Commercial Partners to

26

00:00:58,430 --> 00:00:56,039

build Humanity's next orbital Outpost

27

00:01:00,290 --> 00:00:58,440

and all this is happening right now

28

00:01:02,450 --> 00:01:00,300

the modules that will enable these new

29

00:01:04,670 --> 00:01:02,460

lunar discoveries are being manufactured

30

00:01:09,410 --> 00:01:04,680

in the United States and around the
