

Russian Spacewalk 56

1
00:00:06,710 --> 00:00:03,889
foreign Russian spacewalk 56 will be

2
00:00:09,589 --> 00:00:06,720
conducted by Sergey prokopiev ev1 and

3
00:00:11,509 --> 00:00:09,599
the red stripes and Dimitri patellen ev2

4
00:00:14,270 --> 00:00:11,519
and the blue stripes

5
00:00:18,950 --> 00:00:14,280
Anna kakina will assist as sudivi and

6
00:00:21,170 --> 00:00:18,960
European robotic arm era operator

7
00:00:23,630 --> 00:00:21,180
to start the spacewalk cruel egress the

8
00:00:25,970 --> 00:00:23,640
poisk airlock with a tool carrier crew

9
00:00:29,570 --> 00:00:25,980
luck bag and an adapter to assist with

10
00:00:34,490 --> 00:00:31,669
after securing the adapter on the

11
00:00:36,049 --> 00:00:34,500
strello 1 translation ring crew will

12
00:00:39,410 --> 00:00:36,059
translate to the forward side of the

13
00:00:43,130 --> 00:00:39,420

poisk module here there will retrieve

14

00:00:47,209 --> 00:00:44,990

Sergey and Dimitri will move along the

15

00:00:50,510 --> 00:00:47,219

strela 2 boom and continue Nader to the

16

00:01:00,350 --> 00:00:52,790

Dimitri will temporarily Stow the era

17

00:01:04,189 --> 00:01:02,029

will move further Nader to the radiator

18

00:01:07,250 --> 00:01:04,199

work site where they'll first work to

19

00:01:11,109 --> 00:01:07,260

disconnect a radiator cable cap it and

20

00:01:16,010 --> 00:01:13,730

nearby the two will remove a protective

21

00:01:18,170 --> 00:01:16,020

cover from the radiator close the fluid

22

00:01:21,830 --> 00:01:18,180

connectors then remove the protective

23

00:01:25,789 --> 00:01:23,749

[Music]

24

00:01:28,130 --> 00:01:25,799

each crew member will open a Nader

25

00:01:36,230 --> 00:01:28,140

radiator launch lock then translate

26
00:01:40,969 --> 00:01:38,510
while the era grapples onto the radiator

27
00:01:44,210 --> 00:01:40,979
Dimitri and Sergey will monitor the

28
00:01:53,510 --> 00:01:46,670
once motion is complete they'll close

29
00:01:58,429 --> 00:01:55,429
and will retrieve the previously stowed

30
00:02:02,210 --> 00:01:58,439
era adapter and install it on the strela

31
00:02:10,130 --> 00:02:04,609
Sergey removes the protective cover and

32
00:02:18,050 --> 00:02:12,410
both crew will begin a long translation

33
00:02:18,060 --> 00:02:28,270
foreign

34
00:02:42,050 --> 00:02:31,309
down to the nooka module well they'll

35
00:02:46,610 --> 00:02:44,690
Dimitri and Sergey will work together to

36
00:02:49,729 --> 00:02:46,620
make three connections on a cable

37
00:02:52,100 --> 00:02:49,739
inspect screws and remove a protective

38
00:02:55,729 --> 00:02:52,110

cover from the interface

39

00:02:58,309 --> 00:02:55,739

[Music]

40

00:03:01,190 --> 00:02:58,319

crew will move to a monitoring position

41

00:03:03,530 --> 00:03:01,200

and provide a go to Anna to maneuver the

42

00:03:04,740 --> 00:03:03,540

radiator in for mating to the nooka

43

00:03:09,410 --> 00:03:04,750

module

44

00:03:15,050 --> 00:03:12,350

after mating the radiator both crew will

45

00:03:25,449 --> 00:03:15,060

perform final mechanical hydraulic and

46

00:03:33,050 --> 00:03:27,710

from there they'll translate backup

47

00:03:37,850 --> 00:03:34,630

foreign

48

00:03:38,869 --> 00:03:37,860

will secure a jettison bundle to stella

49

00:03:40,789 --> 00:03:38,879

one

50

00:03:42,710 --> 00:03:40,799

and after performing a tool inventory

51

00:03:44,990 --> 00:03:42,720

Sergey and Dimitri will Ingress the

52

00:03:50,840 --> 00:03:45,000

airlock and close the hatch ending
