

HAPPY HOLIDAYS!

1
00:00:05,450 --> 00:00:02,330
greetings from the International Space

2
00:00:06,829 --> 00:00:05,460
Station on behalf of expedition 68 we'd

3
00:00:09,530 --> 00:00:06,839
like to wish you and your loved ones

4
00:00:10,730 --> 00:00:09,540
happy holidays and a happy New Year we'd

5
00:00:16,070 --> 00:00:10,740
also like to share some of our favorite

6
00:00:22,370 --> 00:00:18,290
it's a very special time to spend the

7
00:00:24,950 --> 00:00:22,380
holidays at a home away from home and in

8
00:00:26,689 --> 00:00:24,960
the upcoming New Year's Day I would like

9
00:00:33,049 --> 00:00:26,699
to take a picture of the first Sunrise

10
00:00:37,610 --> 00:00:35,330
one thing that I absolutely love about

11
00:00:39,470 --> 00:00:37,620
the holidays that I will miss up here is

12
00:00:42,650 --> 00:00:39,480
getting together with friends and family

13
00:00:45,049 --> 00:00:42,660

in the kitchen and cooking a huge feast

14

00:00:47,330 --> 00:00:45,059

it's a little chaotic it's loud

15

00:00:50,090 --> 00:00:47,340

everybody's laughing and having fun and

16

00:00:51,889 --> 00:00:50,100

you have the great smells of cooking now

17

00:00:54,350 --> 00:00:51,899

because we're in space and we don't have

18

00:00:55,850 --> 00:00:54,360

gravity heat doesn't rise so you don't

19

00:00:56,930 --> 00:00:55,860

get smells like you do on Earth but

20

00:01:00,170 --> 00:00:56,940

we're still going to have a pretty good

21

00:01:01,369 --> 00:01:00,180

Feast I have spicy green beans here for

22

00:01:06,050 --> 00:01:01,379

koichi

23

00:01:07,910 --> 00:01:06,060

I have duck confit for Frank

24

00:01:09,170 --> 00:01:07,920

the only way to get Josh to eat his

25

00:01:13,609 --> 00:01:09,180

vegetables

26

00:01:16,130 --> 00:01:13,619

broccoli agarotten lots of grout

27

00:01:18,890 --> 00:01:16,140

of course we have our bread

28

00:01:22,010 --> 00:01:18,900

and some people I know it's very special

29

00:01:25,310 --> 00:01:22,020

around the holidays you must have your

30

00:01:30,770 --> 00:01:26,929

and a little candy

31

00:01:34,910 --> 00:01:31,990

yes

32

00:01:37,130 --> 00:01:34,920

you're very welcome

33

00:01:39,590 --> 00:01:37,140

well uh we don't have a chimney up here

34

00:01:41,929 --> 00:01:39,600

uh but usually the reindeer docked to

35

00:01:44,030 --> 00:01:41,939

node 2 Zenith unfortunately this year

36

00:01:46,550 --> 00:01:44,040

all the docking ports are taken so we're

37

00:01:47,810 --> 00:01:46,560

expecting that uh Santa will likely come

38

00:01:50,510 --> 00:01:47,820

through the airlock that's where we're

39

00:01:52,670 --> 00:01:50,520

putting our uh our stockings Nicole's

40

00:01:53,990 --> 00:01:52,680

got hers here at the gem airlock but

41

00:01:56,590 --> 00:01:54,000

either way we'll be ready for him when

42

00:02:01,609 --> 00:01:56,600

he gets here from our home to yours
