

1
00:00:06,140 --> 00:00:03,560
greetings NASA it's me Stephen Colbert

2
00:00:09,290 --> 00:00:06,150
and I just want to congratulate you on a

3
00:00:13,490 --> 00:00:09,300
great year your dramatic pictures from

4
00:00:15,020 --> 00:00:13,500
Cassini finding water on Mars and your

5
00:00:17,120 --> 00:00:15,030
dramatic discovery of a new

6
00:00:20,060 --> 00:00:17,130
administration that believes in science

7
00:00:22,910 --> 00:00:20,070
though I urge you to never give up on

8
00:00:25,849 --> 00:00:22,920
President Bush's bold challenge before

9
00:00:28,429 --> 00:00:25,859
this decade is out we must launch a

10
00:00:33,530 --> 00:00:28,439
probe to find out if there's oil in

11
00:00:34,130 --> 00:00:33,540
heaven and it's been a great year for me

12
00:00:37,430 --> 00:00:34,140
too

13
00:00:41,360 --> 00:00:37,440

I of course was the winner of your

14

00:00:43,610 --> 00:00:41,370

online note naming competition despite

15

00:00:46,779 --> 00:00:43,620

my coming in first place in the popular

16

00:00:49,700 --> 00:00:46,789

vote you name the node tranquility yeah

17

00:00:51,860 --> 00:00:49,710

that'll scare the aliens they're not

18

00:00:55,040 --> 00:00:51,870

gonna mess with Earth now we might get

19

00:00:56,840 --> 00:00:55,050

all relaxed at them but I was still

20

00:01:00,340 --> 00:00:56,850

honored to receive the traditional NASA

21

00:01:02,840 --> 00:01:00,350

consolation prize a space treadmill I

22

00:01:04,670 --> 00:01:02,850

couldn't be prouder that my treadmill

23

00:01:06,920 --> 00:01:04,680

will soon be installed on the

24

00:01:09,500 --> 00:01:06,930

International Space Station to help

25

00:01:11,870 --> 00:01:09,510

finally slim down all those chubby

26

00:01:13,789 --> 00:01:11,880

astronauts let's face it being

27

00:01:15,830 --> 00:01:13,799

weightless is mostly just a desperate

28

00:01:18,469 --> 00:01:15,840

bid to get away from that bathroom scale

29

00:01:20,690 --> 00:01:18,479

every morning but you guys and gals are

30

00:01:24,080 --> 00:01:20,700

ambassadors to the universe don't make

31

00:01:27,710 --> 00:01:24,090

us look bad put down the astronaut ice

32

00:01:29,090 --> 00:01:27,720

cream tubby tubby tubby 2x4 couldn't fit

33

00:01:34,700 --> 00:01:29,100

through the airlock door

34

00:01:36,289 --> 00:01:34,710

it's Buzz Aldrin not but all dread so

35

00:01:37,969 --> 00:01:36,299

hit the combined operational

36

00:01:40,580 --> 00:01:37,979

load-bearing external resistance

37

00:01:43,580 --> 00:01:40,590

treadmill or call bear but remember to

38

00:01:46,340 --> 00:01:43,590

stretch out first because in space no

39

00:01:48,530 --> 00:01:46,350

one can hear you pull a hammy now in

40

00:01:50,690 --> 00:01:48,540

closing I just want to say we are all

41

00:01:52,520 --> 00:01:50,700

huge fans here and it has been a true

42

00:01:55,609 --> 00:01:52,530

honor to make merciless fun of you this

43

00:01:58,819 --> 00:01:55,619

year now this is Stephen Colbert saying
